*Proceedings of the Madras Government, Public Works Department,
27th October 1874.*

No. 585. Read the following letter from Colonel E. A. FOORD, R.E., Superintending Engineer, Bellary, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Bellary, 9th October 1874, No. 1,099.

I HAVE the honor to bring to the notice of Government that the furniture for the Roman Catholic Church at Bellary, sanctioned in G. O., No. 70, dated 1st July 1873, Estimate Rupees 2,434, has been made at the Roman Catholic Boys Industrial School in anticipation of funds for the same being allotted in the current year.

2. The Roman Catholic Chaplain has referred me to a letter of his of the 30th March to the late District Engineer, in which he states that the furniture will be completed by the end of the following month; that it was a great advantage to the Industrial School to be allowed to go on with the work when there was a slackness of other work; but that as a large amount had been expended, it would be a burden to the Institution if payment was long delayed.

3. It is to be inferred that the late District Engineer authorized the furniture being made. The estimate was included in the statement of demands from the current year's "Reserve" forwarded in April last, but no allotment has yet been sanctioned.

No. 586. ORDER THEREON, 27th October 1874, No. 3,058.

ACCOUNT, No. 46.

PROVISION for the work in question could not be made from the Reserve of the current year solely for want of funds, and the same cause prevents any provision being made at present. The District Engineer should obtain a bill of the actual cost of the furniture, and apply for funds to meet it when transfers are made of unutilized balances towards the end of the year.
