Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
29th October 1874.*

No. 629. Read the following endorsement of the District Engineer, Cuddapah, dated Cuddapah, 30th September 1874, No. 1,261:—

From W. D. HORSLEY, Esq., Collector of Cuddapah, to Colonel A. S. MOBERLY, R.E., District Engineer, Cuddapah, dated Kandlamadgu, 25th September 1874, No. 183.

With reference to your letter No. 1,103, dated September 10th, 1874, I have the honor to send you a copy of a letter which I have written to the Board of Revenue on the subject of the Sub-Collector's Cutcherry. Before I add my signature to the plans and abstract estimates herewith returned, I beg you will take into consideration the proposals I have made to the Board, adding thereto any improvements which may suggest themselves to you.

From W. D. HORSLEY, Esq., Collector of Cuddapah, to J. GROSE, Esq., Secretary to the Board of Revenue, dated Kandlamadgu, 25th September 1874, No. 219.

The Sub-Collector's Cutcherry at Madanapally has been found to require extensive repairs, for which an expenditure of Rupees 4,820* is required. The whole of the roof, the upper

* As per corrected entries in the estimate.

part of the walls, and the verandah are to be removed.

2. The building as it stands consists of three rooms, one behind the other, with a verandah running round three sides of it. The Sub-Collector's room and Court-house (for only one room is available for Revenue and Magisterial work) measures 20 feet by 18 feet. Behind it is the Clerk's room, measuring 16 feet by 18 feet, and behind that again is the second room of the same dimensions as the Clerk's room. On each side of the record-room, and occupying a portion of the verandah, is a room for the Police and stores, each room measuring 16 feet by 7 feet 9 inches.

3. It will be seen that the accommodation is very limited for a Sub-Collector's Office, and I suggest that either an entirely new Cutcherry be built according to a standard plan, if there is such a plan, or that the present building be enlarged. If the latter course be adopted at least two additional rooms are required, one for the Sub-Collector and another for Sheristadar. The present Police and store-rooms are little better than small bath-rooms. The verandahs should not be thus occupied, and larger rooms for the Police and stores should be added to the main part of the building. The only room now available as an office room for the Sub-Collector and Magistrate should be larger, and should be properly furnished as a court-room, with a raised and railed off bench.

4. The Assistant Superintendent of Police has at present a very inconvenient office in the village of Madanapally. As it is very necessary that a suitable office should be built for him, I suggest that additions should be made for the purpose to the Cutcherry, or that a separate building for a Police Office should be erected in the Cutcherry compound.

5. The plan and estimate sent to me by the District Engineer for countersignature provide solely for the repairs of the Cutcherry without alterations of any kind. I have asked him to consider my proposals before submitting the work, as at present contemplated, for the sanction of Government.

SUBMITTED to Government, together with a plan and estimate, amounting to Rupees 4,820, for repairing the Sub-Collector's Cutcherry at Madanapally, with his opinion that in case the views of the Collector are approved of accommodation for the Range Office be also incorporated in the proposed building instead of the new Office sanctioned in G. O., No. 525, of 2nd March 1874. In the event of this

proposal being approved, begs that orders may be issued to the Consulting Architect to prepare a plan to contain all these buildings.

(Signed) A. S. MOBERLY, Colonel, R.E.,
District Engineer, Cuddapah.

No. 630.

ORDER THEREON, 29th October 1874, No. 3,081.

CIVIL WORKS, No. 45.

THE proposals of the Revenue Board with reference to the Sub-Collector's Cutcherry will be awaited.

That of the District Engineer to cancel the sanction already given for a Range Office, and to add such a building to the Sub-Collector's Cutcherry is negatived.

(True Extract.)
