*Proceedings of the Madras Government, Public Works Department,
2nd November 1874.*

No. 5. Read the following letter from Major J. O. HASTED, R.E., Officiating
Superintending Engineer, 1st Division, Kistna, to Colonel G. W.
WALKER, R.E., Secretary to Government, Public Works Department,
through the Controller of Public Works Accounts, dated Masulipatam,
8th August 1874, No. 45:—

I HAVE the honor to forward, herewith, a statement showing loss by sale of
materials collected long since for the Subsidiary Jails at Bapatla and Tenally, and
to request sanction to write off the sums of Rupees **389-3-0** and Rupees 55-5-4.

2. In October 1868 Government granted a sum of Rupees 50,000 for
expenditure on the construction of Sub-
sidiary Jails in this district; estimates
for the works to be submitted as early
as possible. The manufacture of mate-
rials was put in hand; but, in the first
quarter of 1869-70, sudden orders were
issued to put a stop to all works, in consequence of which the Superintending
Engineer, 2nd Division, directed Range Officers to sell off all perishable materials
at fair prices by public auction if they
could not be used on other works. The
statement shows the results of the different sales effected.

Vide G. O., No. 2,059, of 24th June 1869.
" " " 2,205, of 7th July "

Vide G. O., No. 1,591, of 2nd July 1870.

3. The amount of loss on the Bapatla Sub-jail is therefore Rupees **389**, which
should be considered as a dead loss to the work; and the proceeds of the materials
sold, viz., Rupees **411**,* not being pro-
vided for in the allotment made in the
current year for the completion of the
work, I have the honor to request an
additional allotment of that amount may
be made at once. The loss on Tenally
Sub-jail I propose to include in the estimate now under preparation.

* Sale proceeds	Rs. 413
Difference between Rupees 802 expended for materials collected and Rupees 800 only deducted in estimate	2
	411

4. The recoveries made by Range Officers, though apparently correctly shown
in the returns sent to the Controller, did not appear in the reports sent to this
office, and consequently the loss was
not noticed when the estimates† were
submitted.

Remarks by the Officiating Controller of Public Works Accounts.

The submission of this letter has been delayed owing to a reference which it was necessary to make to the District Engineer, and which has led to the submission of a revised statement (herewith sent) and to the red ink* alterations in the letter. The "writing off," proposed in the 1st paragraph, is not necessary. The works must continue to bear the debit.

2. The debit against the Sub-jail, Bapatla, stands at Rupees 802-4-0 for materials, the amount realized by sale (Rupees 413-1-0) having been credited not to the work, but to Government (Revenue). The debit for materials against the Sub-jail, Tenally, stands at Rupees 891-4-3, the original debit of Rupees 917-7-5 having been reduced by a credit to the work of Rupees 26-3-2. The difference (Rupees 835-14-11) between this last-mentioned sum and the amount (Rs. 862-2-1) recovered for materials sold or transferred was credited to Government (Revenue).

Offg. Controller of Public Works Accounts.

It appears from these papers that materials valued at Rupees 1,719-11-5,* which had been collected for the Sub-jails at Bapatla and Tenally in the Kistna District, were sold, and the proceeds carried to the credit of Government, with the exception of a sum of Rupees 26-3-2 which was deducted from the expenditure on the latter work. In order to admit of the completion of these works, it is now necessary to re-allot funds to the extent of the value† of materials sold which still remains debited against the works. In respect to the Tenally building the Superintending Engineer expresses his intention to include the amount wanted in the estimate which is now under preparation; and the Financial Department will be requested to provide the sum still required to adjust outlay on the Sub-jail at Bapatla from the Convict Labor Fund.

2. It is observed that under this arrangement the nominal cost of the buildings will be enhanced to the extent of the value of materials sold for which the works received no credit, and which now requires re-allotment.
