Read the following letters:—

No. 113. From A. C. LAWFORD, Esq., Officiating District Engineer, South Canara, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Mangalore, 28th September 1874, No. 70.

I HAVE the honor to request that you will be so good as to move the Government to sanction a further allotment, under the head "Repairs Miscellaneous Public Improvements, Port Fund," of Rupees 250 by transfer from the balance of Rupees 10,000, Item No. 100, in the Provincial Budget for 1874-75, Rs. 125, to cover certain emergent expenditure connected with the repairs of a fallen portion of the quay already incurred, and Rupees 125 to meet any future unforeseen contingencies, as there are at this date only Rupees 9 available at my disposal under the above-noted head.

No. 114. From the same Officer, dated Mangalore, 14th October 1874, No. 76.

WITH reference to your memorandum, No. 776, of 10th instant, requesting me to furnish details of expenditure on the Mangalore quay, I beg to inform you that the maintenance allowance of the quay, which is Rupees 250, has not been exceeded; the additional allotment of Rupees 125, applied for in my letter under reference, being the sum required to cover the expenditure incurred on a separate estimate of Rupees 356 for repairing a fallen portion at the southern extremity of the quay, for which Rupees 200 only were appropriated from the Budget allotment of Rupees 500, Rupees 25-8-0 having been spent during the last year.

2. As the work was very emergent, immediate instructions were given to complete it at an early date, as otherwise more damage would have been sustained during the rainy season, and more money would have been required for repairs. I was not in a position to apply for the correct amount of the additional allotment before the work was fully completed.

3. Another sum of Rupees 125 was applied for in the letter referred to in memorandum under reply, to meet any future unforeseen demands for works under "Repairs" Port Fund, and therefore it cannot be taken as an excess.

4. The details of appropriations made from the Budget allotment of Rs. 500 and additional grant of Rupees 195 are given below.

5. Out of the allotment made for the maintenance of the quay only Rs. 90 have been spent up to the end of September 1874, and the balance is required to maintain it in good order throughout the year.

No. 115. ORDER THEREON, 6th November 1874, No. 3,160.

CIVIL WORKS, No. 14.

THE District Engineer will provide the sum required from the unexpended balance of the sum of Rupees 500 allotted in the Budget for the quay repairs. His appropriation of half that sum as a separate maintenance fund is not approved, the practical effect of his method of dealing with the grant being to double it.
