134-135

Dated 9-11-1874 ~~195~~ .

Not to be folded or roughly handled

No. 134. Read the following letter from Major J. BEATTY, R.E., District Engineer, Godavery, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Dowlaishweram, 21st August 1874, No. 1,612:—

As directed in G. O., No. 186, of 21st ultimo, I have the honor to submit herewith the plan and estimate of the proposed Treasury for Cocanada.

1 Plan.
1 Rough Sketch.
1 Estimate.
1 Specification.
1 Site Plan.

2. They were prepared some months since according to a rough sketch furnished by the Collector and herewith sent.

No. 135. ORDER THEREON, 9th November 1874, No. 3,171.

CIVIL WORKS, No. 15.

THE question of improving and extending the accommodation for the Collector's Cutcherry at Cocanada does not appear to have been treated as systematically as the subject required.

2. The main building is understood to be a substantial upstairs dwelling-house, with which it is not at present proposed to meddle. But the Office establishments, including the Treasury, Deputy Collector's Office, Press, etc., etc., are located in old godowns and out-offices unsuited to the purpose. It has therefore been proposed by the Collector, on different occasions, to build a new Press Office at a cost of Rupees 10,500, and a new Treasury for Rupees 8,500.

3. With reference to the former building it is remarked that a sum of Rupees 3,230 was sanctioned in G. O., No. 2,021, of 13th July 1869, for improvements to the existing building, which were never carried out; and it would appear from the plan of it now submitted, and the dimensions stated, that one wing has since disappeared, though no mention of such a fact, or of the previous sanction, is made in the recent correspondence. The space at present in use is 1,200 square feet, exclusive of verandahs. Nearly double that space is stated to be necessary in the report from the Superintendent of the Government Press, referred for the Revenue Board's opinion in Revenue Department Order, No. 893, of 21st July.

4. The plan of Treasury now submitted provides for a Treasury and Cash-keeper's office, each 40 feet by 20, one on each side of a room for stationery 20 feet square. But there is no proper accommodation for the Treasury guard; and the Cash-keeper's room is improperly separated from the Treasury.

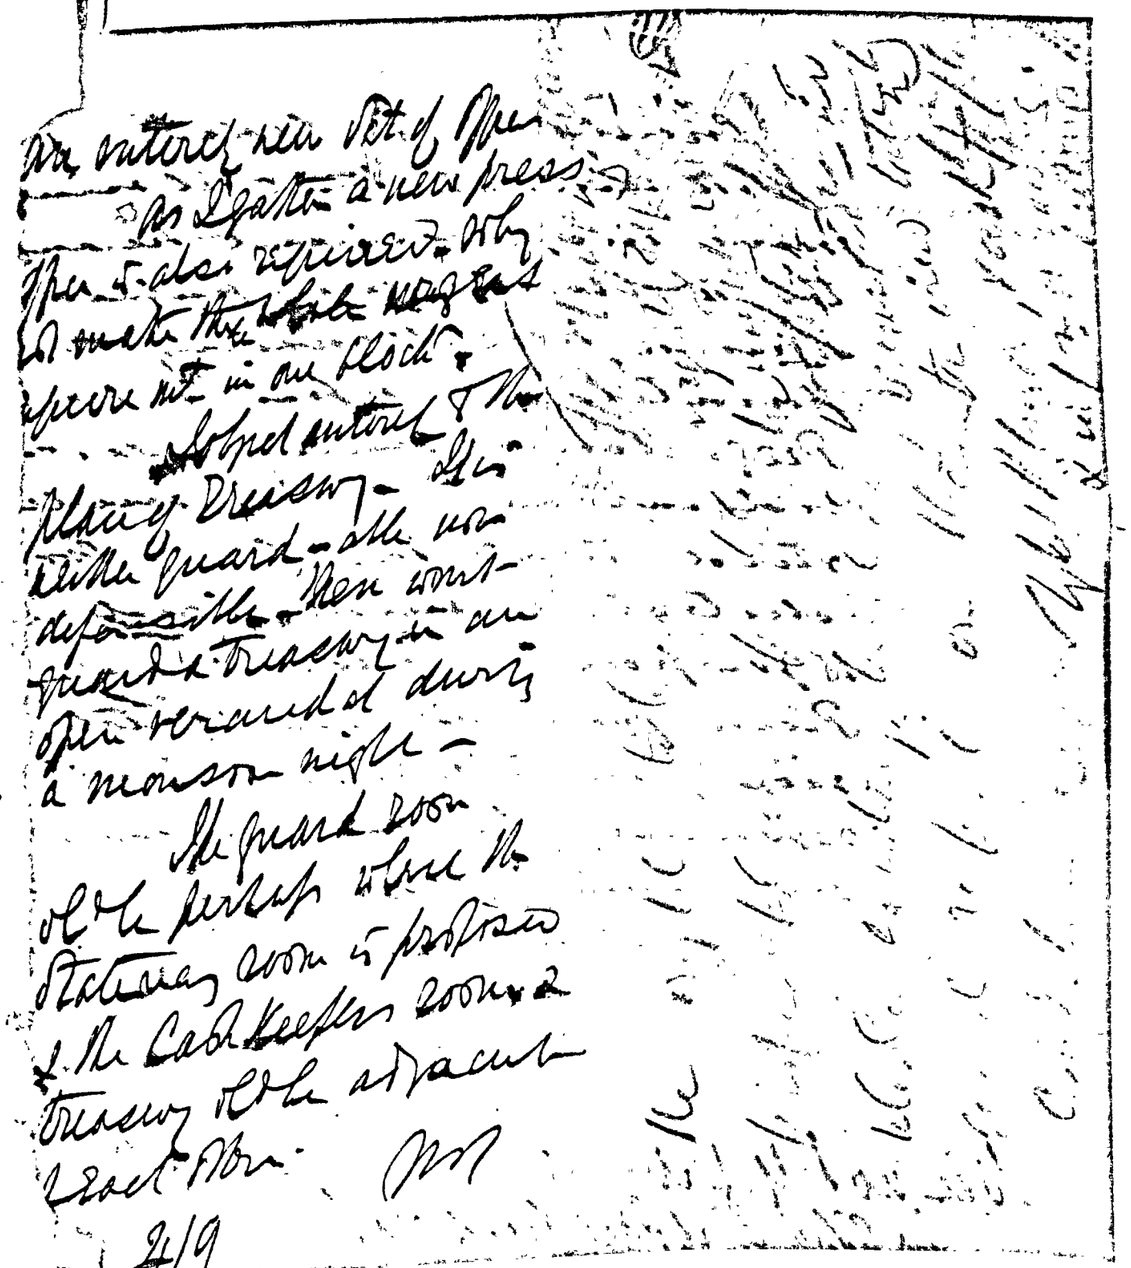

5. The District Engineer is instructed to revise both plans and to throw them into one, submitting at the same time a plan of the whole of the existing buildings with report on their condition; and report on what is proposed to be done with the present Press and Treasury buildings when superseded by new ones. Meanwhile an entry of Rupees 20,000 on account of the work will be made in the Budget of 1875-76.

Godavery

(M. G. No. 1643 Dated 21st Augt 1874)

Recd

Requesting sanction for erecting the accommodation for the collector's Cutchery at Cocanada does not appear to have been stated in the estimate (vide para 2 of my letter No. 3383 dated 21st Augt 1874) as expressly required by the encl. Regulations.

The Cocanada Office is undoubtedly a municipal Institution, and being housed, with Sanction, in a building which it is not at present intended to occupy permanently, the Collector should be left to provide for the accommodation required by the Municipality.
