Proceedings of the Madras Government, Public Works Department, 6th September 1873.

No. 88. Read the following letter from J. W. RUNDALL, Esq., District Engineer, Tinnevelly, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Palamcottah 15th August 1873 No. 67 :—

WITH reference to paragraph 3 of my letter No. 58 of the 4th instant, I have the honour to request you will be pleased to allot to this district a further sum of Rupees 400 under "Ecclesiastical," to enable me to carry out some necessary repairs to the Protestant (old Dutch) church at Tuticorin. An estimate for that amount has been prepared, which the Church Committee are very anxious should be carried out.

No. 89. ORDER THEREON, 6th September 1873, No. 2,211.

CIVIL WORKS, No. 5.

THE sum of Rupees 400 will be transferred from the grant for Repairs Civil Buildings, Provincial, in the Presidency District, which can be supplemented later in the year if necessary.

Dep. 25

From. J. W. Rundall Esquire
District Engineer Juniewelly

To. Colonel G. W. Walker R. E.
Secretary to Government P.W.

Sir.

In continuation of my letter No. 158 dated 15th January regarding the Juticonin Church, I have the honor to forward herewith a plan and Estimate for alterations to that Building.

Encls: 2
1. Estimate of Rs 1500.
1. Plan sent separately

2. As explained in my previous letter the roof of transepts is terraced on palmyra rafters of considerable span some of these rafters have rotted away and the roof would in any case require renewing. This renewing with entirely new Timber (vengay or teake) would cost rather more than the proposed alterations.

3. The Church is an old one bearing the date A.D. 1650, but being plastered and standing close to the beach the outside plaster has been affected and is very scaly

as the Church is large

for the usual congregation,
than is necessary. I think the removal of
the transepts is better than the entire renewal
of their roofs which would otherwise be
necessary, and trust that the Estimate
may be approved and sanctioned.

I have the honor to be
Sir
Your Most Obed. Servt.

1. Instructions & Chap: claims Endorsement dated 7.7.74.

With reference to your letter No 82 of the 10th August returning the Estimate of the proposed alterations to the Tuticorin Church and requesting, that as his Lordship the Bishop objected to the removal of the sides Aisles, the repairs should be effected in some other way.

2. I have therefore had an Estimate prepared for reroofing these aisles using Vaugay wood for the joists instead of palmyra.

3. The Estimate now amounts to Rs 1350. I have included in it the alterations of the windows, the removal of the pulpit and other provisions previously entered in the first Estimate.

4. I trust that this Estimate may be approved and sanctioned at an early date.

5. The original papers which accompanied your letter under reply are herewith returned.

P W 754/74

No 537

Jaffna District Engineer's office
Palamcottah 22nd October 1874.

From

The District Engineer
Jaffna

To

The Church Committee
Tellippalai

Gentlemen,

On the Estimate now sanctioned for the repair of the Protestant Church there is an item for replacing some of the rafters of the Terrace Roof of the side Aisles which have failed.

2. The Estimate was prepared during my absence on leave and from inspection I made the other day I doubt whether the replacing of the defective rafters can be done so as to give satisfactory results. The rafters have sagged and are I think too weak for the terrace, hence an attempt to put in new rafters might result in cracks in the terrace and then it would be necessary

to

to reconstruct the whole roof.

3. As I believe these Aisles are not really required for the usual Congregations at your town, I should recommend their being entirely removed, the side walls being built up and fitted with windows. This would make the Church much lighter than at present.

4. It is evident from the enclosed plan which I found in my office, that this was formerly contemplated though why not carried out I am unable to say.

5. I request you will favour me with your opinion on the above suggestions.

6. A Vestry can be provided by a small separate room being built on the north side, unless a portion screened off from the north East corner would provide all that is needed.

7. Please return the Plan and favour me with any suggestions you may wish to offer

I have the de

Specification Report to accompany the Estimate for Repairing and improving the Protestant Church at Tuticorin.

1. Amount of Estimate Rupees. 1350 -

Provisions of Estimate. The Estimate provides for removing and rebuilding the roof of the transepts, for placing doors below the windows in the transepts, for raising the compound wall between the pillars on the west side of the Compound, for plastering and sundry repairs.

Removing old work:- The roof of the transepts to be removed as per Estimate and the walls below the sills of the windows to be cut down to the level of the floor.

Square timbers:- The terraces to be supported on rafters 2" x 4½" laid 8" apart from centre to centre. On these will be laid one row 8" square bricks in mortar and above this 1½" brick jelly in mortar well beaten down and brought to a level surface. Above these three courses of flat tiles in mortar to be laid & the top to be plastered with 3 Coats of chunam. The square bricks to be dipped in white wash before being used. The bricks and tiles to be brought from Palamcottah. The rafters to be of sound well seasoned Vangay or Conjoo.

Coral Stone in mortar:- The walls between pillars of Compound wall on West side to be raised as per Estimate with coral stone in mortar Composed of 1 part lime & 4 sand. Only sand free from salt to be used. Water

to be obtained from the municipal Wells.

Care must be taken to soak the stone well before use and to lay it with proper bond.

Sand Stone in Mortar. The Coping of Compound wall to be of Sand Stone, as Mortar specified in last para the Stone should be of a hard sound description and thoroughly wetted before used. The outer Stones should be dressed with a hammer. to the required shape

Plastering. The pillars of Portico and Coping of Compound wall to be plastered with 2 coats. The 1st Composed of 1 sand to 1 lime ground together the 2nd. 1/8" thick to be composed of 1 part lime to 3 parts fine sand ground together. The latter to be rubbed smooth.

Pointing. The Compound wall below Coping to be pointed with two coats of plaster prepared as specified in last para.

Doors &c. The doors and frames to be of the best Vanjay or Teak well seasoned free from knots, cracks and other defects. On completion they are to be covered with 2 coats of painters Varnish as desired by Range Officer.

On Completion of the work all rubbish accumulated during its execution to be removed to a convenient distance and the places properly cleaned up.

To

Colonel G. H. Walker R.E.
Secretary to Government
P.W.D.

Sir,

I have the honor to bring to your notice that since the Estimate amounting to Rs. 1100 for repairing the Protestant Church at Tuticorin was sanctioned, the Church Committee at that Station have requested that the Estimate may be revised, by removing the two side aisles, the roofs of which (race) are in worse order than the Officer who prepared the Estimate (Mr. Narsan Assistant Engineer) supposed them to be.

G. O. No. 2211 b-9-73

2. I am accordingly having a revised Estimate with Plan &c. made out, but as it can hardly be

be sanctioned in time to admit of the work being completed this year, I would suggest the sum allotted being transferred and utilized elsewhere.

3. I will submit the revised plan and Estimate so as to receive early sanction in next Official Year.

No. 102

28. October 1874

Madras

Sir,

I have the honour to forward herewith, for the information of Government, a petition addressed to the Governor in Council by the Protestant Congregation of Trincomalee, praying that the sum of Rs. 400 allotted for repairing the Protestant Church at Trincomalee may be transferred elsewhere.

2. The petitioners state that the Church is in a very dilapidated condition, and that the roof is in such a state that it is impossible to hold Divine Service in it during the rainy season.

3. The Church is the property of Government, and the Chaplain of Trincomalee has reported that the roof is in a very bad state, and that it is necessary to repair it.

4. The Chaplain has also reported that the Church is in a very dilapidated condition, and that it is necessary to repair it.

5. The Chaplain has also reported that the Church is in a very dilapidated condition, and that it is necessary to repair it.

6. The Chaplain has also reported that the Church is in a very dilapidated condition, and that it is necessary to repair it.

sanction of Government to the early execution of the work.

3. I enclose all the papers and correspondence connected with this case, as you may require them for reference.

4. I observe in G. O. 6th Sept. 1873. No. 2,211 that a sum of Rs. 400 was ordered to be transferred for carrying out the said embankment but the new estimate amounts to Rs. 1350, and more require I presume the special sanction of Government which I trust will be granted at once.

I have the honor to be,
Sir,
Your most Obedt. Servant,

J. Norton
Archdeacon.

Rec'd 29th "
Ans. 16. 1874.

Submits a fresh Estimate from the District Engineer Tinnevelly, for the repairs of the Church at Sattoor as approved by the Rt. Revd the Bishop

No. 3192. 11-11-74.

No 174
Recd to Ord 29 Oct 74

The estimate amounting to Rs 1350 is sanctioned; and as the District Engineer has funds available under "Repairs Civil Buildings Provincial" they may be appropriated to the Church repairs.
