*Proceedings of the Madras Government, Public Works Department,
27th November 1874.*

No. 500. Read the following letter from Major J. O. HASTED, R.E., Officiating Superintending Engineer, 1st Division, Kistna, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Masulipatam, 4th November 1874, No. 101 :—

WITH reference to restrictive orders passed, on Controller's paragraph 23, in note under paragraph 7 of G. O., No. 2,519, dated 5th ultimo, I have the honor to request you will be so good as to inform me how the country stationery required for use on works by Conservancy and Lock Establishments, etc., which has hitherto been charged to "Sundries" or "Contingencies" allowed in estimates of works concerned, is to be obtained.

2. The rules do not say that this sort of stationery should be included in the district annual indents, which hitherto have included only supplies required for use of District, Range, and Sub-divisional Offices and highly paid subordinates, as the supply required for use on works during their construction is of country manufacture, and if locally purchased would cost less than by getting it from Madras.

3. The amount of stationery required for the Conservancy Establishment in this district is considerable, as there are a large number of traffic and water returns prepared daily, in addition to the nominal rolls, receipts, etc., which are kept on works in progress.

4. Should the Government still wish that this kind of supply should be procured from Stationery Depot, I request that the Superintendent may be authorized to comply with my indents which will be prepared with all possible economy and sent to him in due course.

No. 501. ORDER THEREON, 27th November 1874, No. 3,358.

ACCOUNT, No. 27.

UNDER existing orders G. O.s., Nos. 1,195, dated 18th April, and 3,256, dated 12th October 1866, supplies of paper, country included, should be obtained on indent from the Stationery Depot at Madras. Should an emergent necessity arise for obtaining small supplies elsewhere, the cost should not be debited against the works for which required, but the special sanction of Government should be obtained for a Range Officer to include the same in his Office Contingent Bill.
