No. 502. Endorsement of the District Engineer, Presidency, dated Fort St. George, 12th October 1874, No. 4,038.

From J. N. GRAINGER, Esq., General Superintendent, Public Works Workshops and Stores, to Lieutenant-Colonel J. GODDARD, R.E., District Engineer, Presidency, dated Chepauk, 8th October 1874, No. 2,540.

I HAVE the honor to enclose statement of bills outstanding for more than three months for the half-year ending 30th September 1874, and beg to invite your special attention to the bill due by Dr. Stanborough, amounting to Rs. 50-9-1, for the repair of a sucker of well pump.

2. On the submission of the bill in January last, Dr. Stanborough objected to the payment on the ground that the pump could not have been repaired as it did not work, and subsequently had a personal interview with me; to settle matters amicably, I had the pump again looked to. To my demands for payment no reply has been sent, and as the bill is long outstanding I beg to solicit your instructions as to the course to be adopted by me.

30th November 1874.

No. 504. ORDER THEREON, 30th November 1874, No. 3,359.

ACCOUNT, No. 28.

IT is observed that the amount of private bills outstanding for the half-year ending 30th September compares favorably with that remaining unpaid on the 31st March last, there being only Rupees 313 at the end of the half-year now under review as against Rupees 603 shown in the previous return.*

*G. O., No. 1,479, dated 5th June 1874.

2. The sum due by Public Departments is large, the Public Works Department being indebted to the extent of Rupees 3,042 out of a total of Rupees 3,277. It is expected, however, that when re-appropriations of funds are sanctioned at the end of the year all sums due by Officers of this Department will be duly liquidated.
