Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
7th December 1874.*

No. 141.

Read the following:—
M E M O R A N D U M.

No. 912-A.

THE information desired by Government in G. O.,* No. 133, of the 22nd August 1873, as to the irrigation projects in South Arcot which should be proceeded with, has been delayed owing partly to changes in the district and to press of urgent work there. Instructions were sent to the then District Engineer in September 1873, and during a tour of inspection in the early part of this year some of the sites of the projects referred to were visited, and the notes† of inspection submitted to Government show how these at present are circumstanced.

2. With so much to be done in getting existing works into working order, it does not seem to be advisable to press the District Engineer to hasten the completion even of those projects for which the out-door work has been nearly completed. Mr. Sage has a very great deal on his hands, and the rendering of existing works efficient should be his first care. The projects referred to can be kept on the list of unanswered references furnished to this office, but it is thought that they may be omitted from that submitted to Government.

PAUVUR, (Signed) JOHN MULLINS, Lieut.-Colonel, R.E.,
9th November 1874. Chief Engineer for Irrigation.

No. 142.

ORDER THEREON, 7th December 1874, No. 3,441

IRRIGATION, No. 11.

UNDER the circumstances the projects will be kept on the Government list of unanswered references, but action with reference to them will not be called for.

(True Extract.)

Colonel, R.E.,
Secretary to Government.

To the District Engineer, South Arcot.
,, Chief Engineer for Irrigation.
