*Proceedings of the Madras Government, Public Works Department,
9th January 1874.*

Read the following papers :—

No. 83. From Lieutenant-Colonel J. F. FISCHER, R.E., District Engineer, Godavery, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Dowlaishweram, 25th October 1873, No. 2,292.

I HAVE the honour to request you will be good enough to place at my disposal a sum of Rupees 5,000 from the grant of Rupees 30,274 sanctioned by the Government of India in letter No. 60-A. I. of the 18th March 1873, embodied in G. O., No. 1,453, dated 30th May 1873, on account of expenditure on tools and plant for Godavery Delta Works from Extraordinary Funds. This sum is required for distribution as follows:—

	RS.
For Eastern Delta Project	3,500
For Western do. do.	1,500

REFERRED to the Chief Engineer for Irrigation. In his Note recorded in G. O. of 3rd November 1873, No. 2,683, Lieutenant-Colonel Mullins promises to furnish particulars of the precise items which make up the provision in future Budgets under "Extraordinary Tools and Plant" on account of expenditure in England, but it will be seen from the orders recorded in G. O. of 30th May 1873, No. 1,453, that the Government of India require those particulars in reference to the provision of Rupees 50,000 in the Budget of the current year, which should therefore be furnished.

11th November 1873. (Signed) G. W. WALKER, Colonel, R.E.,
Secretary to Government.

No. 83A. Memorandum from Lieutenant-Colonel J. MULLINS, R.E., Chief Engineer for Irrigation, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Ellore Canal, 22nd November 1873, No. 820.

WITH reference to the endorsement* of the Secretary on the letter, No. 2,292 of the 25th ultimo, from the District Engineer, Godavery, it will be seen from the latter part of paragraph 6 of the letter from the Government of India, communicated with G. O. of the 30th May 1873, No. 1,453, that the information required by the Government of India relates to expenditure on tools and plant in England, and the provision for this was on account of the probable requirements of works which have not as yet been sanctioned, so that there is no probability of expenditure under this head in England being required during the current year. The District Engineer's application would be met from the balance of Rupees 7,200 at the disposal of Government, but Colonel Fischer has been informed that appropriations from the grant for tools and plant under "Extraordinary" can be made only upon detailed statements of the way in which it is proposed to expend the money.
