Read the following papers:—

No. 15. From Colonel J. BEAN, R.E., District Engineer, Coimbatore, to Lieutenant-Colonel J. MULLINS, R.E., Chief Engineer for Irrigation and Joint Secretary to Government, Public Works Department, dated Coimbatore, 6th November 1873, No. 68.

With reference to paragraph 9 of your Memorandum, No. 619A, dated 10th September 1873, I have the honour to request that if the services of a Surveyor are available for the survey and section of the Cauvery bank, the man may be sent to this district to work under Mr. Nicholson's orders in the Caroor Range. On inquiry of the Revenue Survey Department I find that there are no maps ready of the Caroor Taluq, but the one of the Perandorai Taluq has been completed and a copy for my use has been asked for.

2. I beg you will sanction the allotment of Rupees 1,000 for Minor New Works, Agricultural, asked for in my demand statement of the 11th October 1873. The Budget allotment* has been appropriated and nearly spent. Indeed, 2,000 Rupees would be more acceptable than the smaller sum, because I have to supply Mr. Nicholson with funds for the estimate of the cost of stones for bench-marks for the above survey, and to provide the unallotted balances of works in progress, aggregating Rupees 945.

* Rupees 2,500.

*P.S.*—Allotment of Rupees 1,000 received since the above was drafted.

No. 815E.

No. 16. *Note by the Chief Engineer for Irrigation.*

The District Engineer was requested to ascertain whether the Revenue Survey Department had completed the survey of the Cauvery south bank in the Coimbatore District, and, if not, to apply for sanction for a survey establishment to do this work, which is necessary to allow of defensive works being properly designed and carried out. Colonel Bean now reports that Revenue Surveys of the Caroor Taluq are not available, and sanction for a Surveyor, Rupees 60, and six lascars, Rupees 6 each, for a period of two months is therefore recommended. There will be some work probably in the way of cross sections to be done in the Perandorai Taluq, and the survey as well as cross sections in Caroor. Mean sea datum should be used for all levels.

2. An extension of the sanction can be applied for if necessary.

Ellore Canal, 19*th November* 1873. (Signed) J. MULLINS, Lieut.-Colonel, R.E., *Chief Engineer for Irrigation.*

No. 17. Order thereon, 6th January 1874, No. 6.

IRRIGATION, No. 1.

*Establishment.*

An establishment for the Survey of the Cauvery south bank, in the Coimbatore District, is sanctioned for a period of two months, at a cost not exceeding Rupees 96 a month, from the provision for temporary establishments.

(True Extract.)

Lieut.-Colonel, R.E.,
*Joint Secretary to Government.*
