MADRAS RECORD OFFICE

Government of Madras

Public works. DEPARTMENT

G.O. No.	2619	Press
~~B.P. No.~~ 302-305		~~Mis.~~
Dated	15-9-1874 ~~195~~ .	

Not to be folded or roughly handled

Read the following papers :—

No. 302. From Colonel J. E. T. NICOLLS, R.E., Secretary to the Government of Bengal in the Public Works Department, to Colonel G. W. WALKER, R.E., Secretary to the Government of Madras in the Public Works Department, dated Fort William, 3rd July 1874, No. 4,454.

WITH reference to the requisition for tools from Madras, I am directed to state that this Government has now sufficient tools for relief purposes, and that the supply from Madras should cease.

2. I am to convey the thanks of the Lieutenant-Governor for the ready assistance afforded by His Excellency the Governor of Madras in procuring these necessary implements for laborers on relief works.

No. 303. Endorsement of the District Engineer, Presidency, dated Fort St. George, 21st August 1874, No. 3,279.

From J. N. GRAINGER, Esq., General Superintendent of Public Works Stores and Workshops, to Lieutenant-Colonel J. GODDARD, R.E., District Engineer, Presidency, dated Chepauk, 18th August 1874, No. 751.

WITH reference to your letter, No. 3,126, dated 13th August 1874, I have the honor to retransmit the statement of tools despatched to Calcutta for famine works in Bengal, showing their original cost. I am unable at present to give the charges incurred on account of these tools which include—

1 Statement.

Conveyance by rail to Madras,
Carriage from Railway Station to Chepauk,
Do. from Chepauk to Pier,
Pier Tolls,
Boat-hire,
Freight,

all the above items should be included with the original cost to show the actual value of the tools supplied. Up to date I have not received the bills for the shipment made in July last.

2. As soon as the statement of tools received but not despatched is completed, I hope to be able to note all charges on account of the tools despatched and those remaining on hand.

3. While on this subject I beg to inquire how the mamooties and picks remaining on hand received for famine works, part of which were awaiting shipment when the order cancelling despatch was received and part subsequently, are to be disposed of. There are 2,550 mamooties, and about 9,086 picks in all. As the Public Works Stores are classed under "Imperial" and "Provincial," it is necessary for the purposes of account that the above tools should be shown under one or other of the above services. For the present, and pending orders to the contrary, I have classed them as Imperial Stores.

4. I beg also to inquire whether these tools may be held available for issue to ranges in this Presidency.

Statement showing the Number and Value of Tools despatched for Famine Relief Works in Bengal.

(Signed) J. GODDARD, Lieut.-Colonel, R.E.,
District Engineer, Presidency.

(Signed) J. N. GRAINGER,
Genl. Supt. of P. W. Stores and Workshops.

SUBMITTED to the Chief Engineer and Secretary to Government, Public Works Department, with reference to his memorandum, No. 511, dated 10th July 1874, and for orders on paragraph 4 of the General Superintendent's letter.

(Signed) J. GODDARD, Lieut.-Colonel, R.E.,
District Engineer, Presidency.

No. 304. Endorsement of the District Engineer, Presidency, dated Fort St. George, 24th August 1874, No. 3,303.

From T. MOSS, Esq., Officiating Controller of Public Works Accounts, to Lieutenant-Colonel J. GODDARD, R.E., District Engineer, Presidency, dated Madras, 22nd August 1874, No. 376.

WITH reference to your docket, No. 3,252 of the 21st instant, relative to tools made up or purchased for transfer to Bengal, but which are not now to be despatched to that province, I have the honor to state that the classification of those

tools as Imperial or Provincial depends upon the grant that may be made by Government to cover their cost. No grant or allotment was necessary while it was practicable to adjust the value by debiting the same to Bengal; but as such a debit cannot apparently now be made, the charge must be adjusted in this Presidency either against the Imperial or Provincial Budget Grant by formal appropriations.

2. I conclude from your reference that Bengal cannot be held liable for what was prepared and purchased for that province. Of course, if this has been agreed to, there is an end of the matter; but, if there is no actual decision, I do not see how Bengal could object to bear the debit of the value of tools prepared or purchased before receipt of instructions to stop the supply. I would suggest a reference to Government on the subject.

REFERRED to the Chief Engineer and Secretary to Government, Public Works Department, for orders, in continuation of this office endorsement, No. 3,279, dated 21st August 1874.

(Signed) J. GODDARD, Lieut.-Colonel, R.E.,
District Engineer, Presidency.

No. 305. ORDER THEREON, 15th September 1874, No. 2,619.

ACCOUNT, No. 15.

THE additional information promised as to cost of carriage, etc., incurred in connection with tools despatched for famine relief works in Bengal will be awaited, with it should be submitted a complete statement of charges. A detailed statement of the mamooties and picks remaining on hand should also be furnished, and particulars supplied as to their cost and place of manufacture. Meanwhile they will be taken into store in substitution of those issued.

2. The Controller has already been directed * to place himself in communication with the Accountant-General of the Public Works Department as to the adjustment of the cost of tools supplied, and the District Engineer will be guided by the instructions which may be received on the subject.

* G. O., No. 3,050, dated 18th December 1873.

3. No portion of the outlay incurred on this account should fall against the assignments made for local objects. Stores supplied from the workshops, the Provincial Reserve and by private individuals will, of course, be charged against the Bengal Government in the usual manner.

(True Extract.)

Colonel, R.E.,
Secretary to Government.

To the District Engineer, Presidency.

Statement of Tools, shipped
to Calcutta for Famine
Works in Bengal.

Public Works & Store Department
Chepauk 18 August 1874

No. 751

From

The General Superintendent
Public Works Stores & Workshops

To

The District Engineer
Presidency

Sir

With reference to your letter No 5126 dated 13th August 1874, I have the honor to transmit the Statement of Tools despatched to Calcutta for Famine works in Bengal, shewing their original cost. I am unable at present to give the charges incurred on account of these tools which include

Conveyance by paid to Madras
Carriage from railway Station to Chepauk
to from Chepauk to Pier
Pier Tolls
Boat hire
Freight

all the above items should be included with the original cost to shew the actual value of the Tools supplied. Up to date, I have not received the bills for the shipments made in July last.

As soon as the Statement of Tools received but not despatched is completed, I hope to be able to note all

all charges on account of the Tools despatched and those remaining on hand.

3 While on this subject I beg to enquire how the Mamotees and Picks remaining on hand received from Famine Works, part of which were awaiting shipment when the Order cancelling despatch was received and part subsequently, are to be disposed of. There are 2500 Mamoties and about 9000 Picks in all. As the Public Works Stores are classed under "Imperial" and "Provincial" it is necessary for the purposes of Account that the above tools should be shewn under one or other of these above Services. For the present and pending orders to the contrary, I have classed them as Imperial Stores.

4 I beg also to enquire whether these Tools may be held available for issue to Rangers in this Presidency.

I have the honour to be
Sir
Your Most Obedt Hble Servt

H Draper
Genl Staff Corps Engineers

No 376 Office of the Controller of Public Works Accounts
Madras, 22nd August 1874.

To
The Secretary to Government
Public Works Department.

Sir,

I have the honor to forward herewith a statement of Tools supplied to Famine Works Bengal with observations.

2. The prices charged for the tools are the actual cost price with the addition of 5 per cent to cover the charges incurred in packing and forwarding them to the Sea Coast.

3. The tools were supplied to the Famine Works Bengal at the request of the Chief Engineer and Secretary to Government Public Works Department.

4. The Public Duty obliging the purchase of tools required for the Famine Works Bengal, has rendered it necessary to keep up a considerable stock of tools, which will be required for the ordinary Public Works of the Presidency, and the Famine Works Bengal will be supplied from the stock now purchased.

I have the honor to be
Sir
Your most obedient servant
Controller of Public Works Accounts

Madras, 22nd August 1874.

No 376

From

The Offg Controller of
Public Works Accounts.

To

The Chief Engineer
Presidency.

Sir,

With reference to your
Revenue No 3252 of the 21st instant,
relative to Tools made up or purchased
for transfer to Bengal but which are
not likely to be despatched to that
Province, I have the honor to state
that the classification of those Tools
as Imperial or Provincial depends
upon the grant that may be made
by Government to cover their cost.
If a grant or allotment was necessary
while it was practicable to adjust
the value by debiting the same to
Bengal, but as such a debit can-
not apparently now be made, the
charge must be adjusted in this
Presidency either against the Imperial

or Provincial Budget grant by formal Appropriations.

2. I conclude from your reference that W Bengal cannot be held liable for what was prepared and purchased for that Province. Of course if this has been agreed to there is an end of the matter, but if there is no actual decision I do not see how Bengal could object to bear the debit of the value of Tools prepared or purchased before Receipt of instructions to stop the supply. I would suggest a reference to Government on the subject.

I have the honor to be
Sir
Your most obedient Servant
