Dated	17-9	1954

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
17th September 1874.*

No. 353. Read the following letter from J. H. LATHAM, Esq., Chief Engineer and Manager of the Madras Irrigation and Canal Company, to Lieutenant-Colonel J. MULLINS, R.E., Chief Engineer for Irrigation, dated Kurnool, 24th August 1874, No. 104 :—

Supplemental Estimate, Upper Division Repairs, 1874-75.

On the 13th December last I had the honor to submit an estimate for the year's repairs of the Upper Division, which was sanctioned in G. O., No. 440, of 23rd February last, and I now have to ask Government sanction for the expenditure of Rupees 8,500 on repairs.

2. The Budget, sanctioned in G. O., No. 438, of 23rd February, allots Rupees 20,000 for repairs, main supply, Upper Sections, of which the G. O. No. 440, sanctioned Rupees 4,200, leaving Rupees 15,800 still available.

3. This supplemental estimate consists of three items :—

	RS.	A.	P.
(1.) Silt excavation, 1st section	995	14	0
(2.) Breach of 19th July 1874	1,923	5	8
(3.) Repairs to 29th mile bank	4,804	7	4
Contingencies	776	5	0
Total...	8,500	0	0

(1.) *Silt.*—It was not strictly silt that required excavation, but the *rushes* which grew across the canal in the shallow parts, especially in the 6th mile. The following shows the effects of the growth of reeds in the early months of this year, while the Toombudra water was clear, and no silt could have been depositing :—

Table of gauge readings showing the depth of water in Canal.

	No. 1 Calingulah in 5th mile.	Hindry Aqueduct in 18th mile.	Difference.
1st December 1873	4.5 Feet.	3.5 Feet.	1.0 Feet.
13th " " " " " " " " " "	4.7 "	3.5 "	1.2 "
1st January 1874	4.5 "	2.8 "	1.7 "
1st February " " " " " " " "	5.0 "	3.0 "	2.0 "
1st March " " " " " " " "	5.0 "	2.3 "	2.7 "

4. Thus in February, though the water in the canal was kept level with the crest of No. 1 Calingulah, it got so scarce below that it was thought we might have to put in the shutters to raise the water above the stone crest. It was, therefore, determined to endeavour to clear the canal through the 6th mile tank, and this was successfully done by Mr. Wilks, notwithstanding unfavorable weather during the short time for which the canal is closed for repairs in May.

(2.) The breach was closed rapidly. Night work was carried on whenever possible. The bulk of the earth had to be brought from distances varying from half a mile to a furlong.

(3.) Owing to a considerable leakage from the lower part of this 29th mile puddle core bank, about half a mile long, one-half had been formed to a slope and

*Proceedings of the Madras Government, Public Works Department,
17th September 1874.*

puddled on the canal side. Since this did not stop the water, the other half was faced with a wall last year. The leak was thus sensibly diminished, but was not stopped, nor did it decrease as much as it would probably do if purely subsoil leakage. This year, therefore, the foreshore of the first-mentioned half was stripped of shingle, and foundations and puddle examined. Nothing was found to account for the leak, but the thickness of the puddle has been doubled; and the leak is now proved to be subsoil leakage, and is also rendered absolutely harmless by the extra security given to the face of the bank. I may here say that the puddle foreshore has been carried to the end of the old puddle-core bank, at an expense of a few hundred rupees to Capital Account. The ground is coarse quartz gravel, in which are large quartz boulders and contorted massive quartzite slabs, all discontinuously mixed.

5. It is open to question whether this item should be charged to Capital.

6. I also enclose a statement of the expenditure of Rupees 160 in repairing the present Upper Divisional Office, the small bungalow in my compound. The Store and Workshop Office is occupied by Mr. Badham's Office, and the landlady of this small bungalow (formerly the Central Office, but much out of repairs) is willing that the Company repair and use it without rent. This was far the cheapest, and seems the best, way of getting the accommodation required. Of course the building ranks as temporary, so far as the Company's tenure is concerned. This expenditure requires sanction.

No. 354.

ORDER THEREON, 17th September 1874, No. 2,644.

IRRIGATION, No. 46.

The following estimate is sanctioned against the Budget provision of Rupees 20,000, under Revenue, for the repair of the Main Canal, in addition to that for Rupees 5,000 approved in G. O., No. 440, of the 23rd February 1874:—

	RS.	A.	P.
Silt excavation, 1st section	...	...	...
Closing breach, 2nd section	...	...	...
Repairs to 29th mile bank 2nd section	...	...	...
Contingencies	...	...	...
Total...	8,500	0	0

2. Though the work executed to the 29th mile bank might, at least in part, be charged to Capital, as it is rather in the nature of a moderate improvement than a new work, it will be left under the head of Repairs, in which the Chief Engineer and Manager, Madras Irrigation and Canal Company, has placed it.

3. The estimate of Rupees 160 for repairing a small building in the compound of Mr. Latham's residence, which is used as an office, and for which no rent

*Proceedings of the Madras Government, Public Works Department,
17th September 1874.*

is paid, is sanctioned against the Budget provision of Rupees 2,650 for repairs of buildings, Upper Section.

(True Extract.)

Lieut.-Colonel, R.E.,
Joint Secretary to Government.

To the Chief Engineer and Manager, Madras Irrigation and Canal Company.

„ Chief Engineer for Irrigation, with two enclosures.

„ Government Examiner of the Madras Irrigation and Canal Company's Accounts.
