Public Works DEPARTMENT

G.O. No. / B.P. No.	2646	Press / Mis.
Dated	17-3	1874 195—

Not to be folded or roughly handled

Proceedings of the Madras Government, Public Works Department,
17th September 1874.

Read the following letters :—

No. 357. From G. D. WYBROW, Esq., Officiating District Engineer, Trichinopoly, to Colonel G. W. WALKER, R.E., Chief Engineer, Public Works Department, dated Trichinopoly, 6th June 1874, No. 86.

With reference to letter No. 679, dated 11th May 1874, from the Inspecting Engineer for Buildings, I have the honor to forward, for approval and sanction, a revised estimate for converting one of the old Cavalry harness-rooms into a Police dead-house at Trichinopoly.

2. Colonel Foord suggests in his letter a thatched roof, but this, I think, would be objectionable, as the building proposed to be converted into a dead-house is not very far distant from a Powder Magazine; indeed, the Brigadier General, Southern District, raised the same objection to the proposed thatched verandahs to the Staff Serjeant's quarters in the same vicinity, and requested that the verandahs might be tiled.

No. 358. From the same Officer, dated Trichinopoly, 17th August 1874, No. 153.

In forwarding, for sanction and provision of funds, plan and estimate, amounting to Rupees 200, for conversion of one of the old Cavalry harness-rooms into a Police dead-house at Trichinopoly, I have the honor to report that the instructions given in Memorandum No. 470, dated 25th June 1874, have been duly attended to, and the plan has been approved of by the Medical Department.

One Plan and one Estimate.

2. The Deputy Surgeon-General of Hospitals, Southern District, has expressed his opinion that the plan amply suffices for the object in view, and that the work should be completed with the least possible delay, as much inconvenience is felt for the want of a dead-house.

No. 359. Order thereon, 17th September 1874, No. 2,646.

CIVIL WORKS, No. 28.

The plan and estimate, amounting to Rupees 200, for converting an old Cavalry harness-room at Trichinopoly into a Police dead-house are sanctioned for immediate execution from the grant* at the District Engineer's disposal under "Repairs Civil Buildings, Provincial."

* Rupees 1,695.

With reference to your letter of the 10th of January No 424 I have the honor to request you will inform me whether you can reduce the amount of the estimate by diminishing the size of the canal which has an area more than double that of the Standard plan. Government in a recent case have required on the great coal of Dead Rivers until adopting Cotton Standard Plan. The draught and cistern draught mentioned in your classification are not required in your estimate. I also request you will state whether there is any objection in this case to a steel dredge and what would be the saving by adopting it As early reply is requested
