the Tinnevely District
for the year 1873-74.

Palamcottah
5th May 1874

To

J. T. Stundall Esq.
District Engineer
Tinnevely

Most honored Sir,

The Government having at your
kind recommendation been pleased to make
a relaxation in favor of C. Ponnappillai
Head Accountant of Tinnevely Range that
under the circumstances brought to their
notice they see no objection to his possess-
ing lands within the limits of his Range
in their order No. 652 of the 1st March 1874
I respectfully and humbly beg your honor
will be pleased in consideration of the
reasons specified below to take a similar
view of my case and recommend me
for exemption from the rule.

The nature of my case as well
be seen is very similar to that of Ponna-
pillai. The land in question is an
hereditary and ancestral property ly-
ing in two different villages and supplied
also by numerous sluices taking their source
from the Tinnevely Channel. It will be
quite apparent in perusing the enclosed
statement.

statement that each sluice from which this land is irrigated has likewise a large area of land to irrigate, and it is impossible as your honor will see that I could manage a better supply for my land from the channel which has to irrigate about 1800 acres of land.

The quantity of land shown in the enclosed statement is that which fell to my share after division of property between my brother and myself and will consequently differ from that given in the statement printed with G. O. No. 2997 of the 12th December 1873.

Under these circumstances I respectfully beg your honor will be kindly pleased to pity my case and strongly recommend me for the exemption solicited above.

I humbly beg to remain
 Sir
 Your honor's most obedient servant
 Arumachalam Pillai
 Writer, District Engineer's Office
 Tinnevely.

For orders

It is suggested that if future lists of lands held by public servants include only names of persons newly entertained, changes of holdings, and reports on former objections, and orders of transfer or the labor of compilation in D. Office would be much reduced and all practical purposes be fully served. An order to this effect might be issued.

Better keep the list - it is not generally a long one - complete otherwise the fact of holding land is liable to the loss of sight of & no one is responsible for seeing that the orders are not complied with - In the Rev. Secy the annual Report is complete.
