No. 461. Read the following endorsement of the Inspecting Engineer for Civil and Military Buildings, dated Chepauk, 14th February 1874, No. 250 :—
From J. O'SHAUGHNESSY, Esq., Executive Engineer in charge of Tanjore District, to Colonel E. A. FOORD, R.E., Inspecting Engineer for Civil and Military Buildings, dated Sheally, 17th January 1874, No. 994.

In reference to G. O., dated 4th December 1873, No. 2,924, I have the honour to forward a plan and estimate for the two Police huts proposed to be built at Tranquebar.

2. These huts are part of the block of one Head Constable's and seven Constables' huts proposed by the Police Department to be built in 1873-74, and entered in the list printed with G. O., dated 7th October 1872, No. 2,340, the amount then allotted for the buildings, Rupees 1,800, was sufficient for only one Head Constable's and five Constables' huts, plan and estimate for which were sanctioned in G. O., dated 18th June 1873, No. 1,591, and the construction of the two huts now proposed had to be postponed.

3. The plan now forwarded is a copy of the original plan, with the addition of the proposed two huts colored yellow. The estimate, Rupees 520, exceeds the amount Rupees 400, which the Police Department propose to allot to the work; but the materials and rates are the same as in the estimate for the huts already sanctioned, and the estimate now forwarded cannot be reduced.

4. It would be convenient to this department, and an advantage to the Police, to have these huts proceeded with in continuation of the work now in progress, and if there is no objection this can be done in anticipation of the amount * of the estimate being available in the first month of the next official year.

* Rupees 520.

The plan and estimate of Rupees 520 received with this letter are forwarded for the orders of Government.
