*Proceedings of the Madras Government, Public Works Department,
3rd March 1874.*

Read the following letters :—

No. 65. From Major J. BEATTY, R.E., District Engineer, Vizagapatam, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Camp at Ramabhadrapuram, 16th December 1873, No. 153A.

THE Executive Engineer of No. II. or Vizianagram Range has requested me to solicit Government to move his head-quarters permanently from Waltair to Vizianagram.

2. No doubt the position of Waltair at one end of the range is somewhat inconvenient, as separating the Range Officer too far from his office, when he visits the works of the sub-division on the frontiers of Ganjam and the Maliahs, 60 to 70 miles off. It also necessitates an extra amount of travelling and dawk journeys, as it would throw his account work greatly in arrears to take the Range Office about with him.

3. Captain Hindle represents the convenience it would be to him having Vizianagram, a more central place, as his fixed station and that of his office; and as he has now had a year's experience in charge of the range, I beg to recommend that the alteration proposed be sanctioned.

No. 66. From the same Officer, dated Waltair, 25th January 1874, No. 1,781.

As requested in your memorandum No. 520 of 27th ultimo, I have the honour to inform you that there is no office accommodation available either at Waltair or Vizianagram, and no Government building is likely to fall vacant at either place.

2. After some communication with the Inspecting Engineer for Buildings, revised estimates were submitted* to him, prepared in accordance with his instructions, for a District Engineer's Office at Waltair, and a Range Office at Vizianagram.

* On 20th October 1873.

No. 67. ORDER THEREON, 3rd March 1874, No. 550.

ESTABLISHMENT, No. 5.

UNDER the circumstances reported in these letters the removal of the Range head-quarters from Waltair to Vizianagram is sanctioned conditionally that no extra expense is thereby permanently incurred.

Under the circumstances (stated)
in above letter the removal of the Range
Head Quarters from the town to the
new place is a necessary and inevitable
consequence of the increasing
population of the town.
The new place is a healthy one
and is well situated for the
purpose.

Yours
