No. 310.

No. 680.

From

COLONEL G. W. WALKER, R.E.,
*Secretary to the Government of Madras,
Public Works Department,*

To

THE CHIEF COMMISSIONER OF MYSORE.

ACCOUNT, No. 17.

SIR,—I am directed to acknowledge the receipt of a copy of the Mysore and Coorg Public Works Budgets for 1874-75, forwarded with docket No. 385, dated 4th February 1874, and to express the regret of His Excellency the Governor in Council that no provision has apparently been made for completing the approaches to the head of the Cooloor Ghaut, especially that from Cooloor Uttay, neglect of which has frequently been brought to the notice of the Mysore Government, and more lately in paragraphs 2 and 3, respectively, of my letters of the 25th April and 30th June 1873, Nos. 1,203 and 1,688.

I have the honour to be,

Sir,

Your most obedient servant,

Colonel, R.E.,
Secretary to Government.

Exd. E. C. Shunker

3
MYSORE CHIEF COMMISSIONER'S OFFICE.

PUBLIC WORKS DEPARTMENT,

Dated Bangalore, 28th January 1874.

From

*The Secretary to the Chief Commissioner for the
Government of the Territories of His Highness the Maharaja
of Mysore.*

To

The Secretary to the Government of India,

*Public Works Department,
CALCUTTA.*

SIR,

I have the honor, by desire of the Officiating Chief Commissioner, to forward for the orders of His Excellency the Governor General in Council, the Budget of the Roads and Buildings' Branch of the Mysore Department Public Works for 1874-75, amounting to 9 lakhs; and to observe that its late submission this year is in accordance with the permission conveyed in your communication No. 660 A. G. of the 6th November last.

PART I.

2. Calls for no remark.

PART II.

MILITARY.

3. It has been found, I am to state, impossible to assign more than Rs. 13,000 under this head, against Rs. 21,000 of the current official year, as there are other very pressing demands; but that owing to the reductions ordered in the Siledar Force, this decrease will not prove so inconvenient as under other circumstances would have been the case. Still the delay in housing the troops is serious; and the Chief Commissioner would, if possible, have gladly avoided it by a larger assignment of funds.

CIVIL BUILDINGS.

4. The total Rs. 1,18,300 here provided is, it will be observed, only Rs. 4,000 less than that for the current official year; but an examination of the items will shew that even of the works in progress, comprising by far the most costly buildings, will be finished, or very nearly so, in 1874-75; and that of seven other entirely new works, all but one will be easily completed; and the requirements of this will probably be met by re-appropriations.

5. Practically, therefore, of the 14 Original Civil Buildings, only one of any importance should run into 1875-76. This work is the Museum, regarding which a special communication has been made (*vide* this Office No. 15 B. C. of this date) and to which a reference is solicited. The dangerous state of the old portion of the existing building has forced the consideration of this work on the Local Administration; and as shewn in the communication adverted to, the large proceeds realizable from sale of the premises now occupied as a Museum, would make the actual cash-outlay on the new building but little in excess of what it would cost to repair the former, which is inconveniently situated and not very suitable in plan.

6. The only other point calling for remark, is, the somewhat small allowance for new 1st class School-Houses, *viz.* Rs. 6,500, as compared with the requirements put forward by the Director of Public Instruction. The provision is certainly not as large as

the Chief Commissioner could have wished; but it is hoped that by subsequent re-appropriation and small assignments from the Minor Works' grant, some further provision may be feasible in the course of the year.

COMMUNICATIONS.

7. The proposed assignment under this head, Rs. 2,11,700, is Rs. 6,300 in advance of that of the current official year, owing partly to the above reduction under Civil Buildings, and partly to the same under repairs communication, to be presently adverted to.

8. I am here to observe that it has been found impossible to effect a greater concentration of work in 1874-75, as compared with the provisions of the current year's Budget, the items numbering (excluding District Fund Works,) 21 in each. This, however, is in some respects due to the provision made for progress of future years, as shewn by items Nos. 21, 26, 31, 32, and 36, nearly all of which, are for preliminary operations on important projects; the detailed estimates for fully developing which will be in readiness for entry in the Budget of 1875-76.

9. The grouping of the works, in accordance with the expressed wishes of Government, is this year better than formerly; items 23 to 27 being shewn as forming a single work under successive estimates; and Nos. 31 to 33, another and similar group. Practically, in fact, there are only 15 distinct works provided for under 21 items. Of these, items Nos. 19, 20, 21, 22, 26, 28, 31, 32, 34, 36 and 37, should be finished, though five of them, as noted in the foregoing paragraph, will re-appear in the Budget for next year under estimates which may in all probability require the sanction of the Supreme Government. Again, items Nos. 17, 18, 23, 29, and 30, should be very nearly, and if possible will be, completed, leaving only Nos. 24, 25, 33 and 35, to run on into 1875-76.

10. The works provided for, are, I am to observe, all of a highly essential character; and the majority of them form portion of a complete system of lines now being worked out under the approval of Government in the Malnad portion of the Province. only two items in fact (Nos. 34 and 35) being partial exceptions. These latter are for bringing up to standard, portions of the few trunk lines in the Maidan portions of the country which still remain to be dealt with from Provincial funds.

11. Although some of the assignments may appear rather low as compared with those usual for the more highly populated portions of India, they may safely be taken as the maximum which it is possible with the utmost energy on the part of a most efficient and intelligent Engineering Staff to assign in a part of India where nearly all labor has to be imported; where the rainfall, reaching 250 inches in the year, limits the working season to about 6 months; where supplies are scarce, and fevers rife, &c. On the Sultan's Battery road (item No. 17) and Hassanur Ghat (No. 20) the climate is deadly, and work has to be carried on under the most adverse conditions.

MISCELLANEOUS PUBLIC IMPROVEMENT.

12. Calls for no remark.

PART III.

MILITARY.

13. The amount provided under repairs here, Rs. 7,000, is so much in excess of that in the current year's Budget, that it is necessary to observe that this extra sum is needed on account of the dilapidated state of the Barr huts at Chikmagalur, as ascertained on a late inspection by the Military Assistant.

CIVIL BUILDINGS.

14. The entry here is the same as during the current year, and will probably suffice

COMMUNICATIONS.

15. The provision, Rs. 2,81,200, is Rs. 4,270 less than in 1873-74. This is in great measure due to a further transfer of the maintenance of roads from Provincial to Local, amounting to 88½ miles. For several years past, a gradual transfer of this nature has been effected in proportion as the District Funds increased under the advance of the Revenue settlement; and as the executive agency at the disposal of the Civil Officers improved in efficiency. Probably in another year the last lines of a non-provincial character will have been transferred, and the D. P. W. Budget relieved as far as is considered desirable by the Local Administration; but as time advances and more trunk-roads are constructed, additional funds for repairs will necessarily be required; and it may, therefore, be concluded that the provision made for 1874-75, is the minimum for road-maintenance in the Province.

ESTABLISHMENT.

16. Although the entry here, Rs. 2,23,710, shews an excess over the passed provision of the current year by Rs. 5,570, such is only apparent, as the Establishment practically remains the same, less the charge for Assistant to Chief Engineer, whose place has not as yet been filled up.

17. The Government of India in letter No. 411, A. G. of the 31st July 1873, intimated that the Rs. 12,000, which were struck off Establishment charge in the Original Budget-Orders for the current official year, would, if necessary, be restored; the grant may thus be accepted as having been Rs. 2,30,140, which is therefore the sum that ought to be compared with the proposed provision for 1874-75.

18. Against the savings effected by the non-appointment of an Assistant Chief Engineer; and further, by a rateable charge against Coorg, under Direction and Account, amounting to Rs. 5,375 (*vide Coorg Budget*) some slight additions have been found requisite under the provision for travelling-allowances and Lower Subordinates, as proved to be indispensable under the experience of the current official year.

19. As the strength of the Departmental Establishments will be reported on at an early date by Colonel O'Connell, who has been deputed by the Government of India to enquire into the matter, no further observation appears to be called for.

TOOLS AND PLANT.

20. The sum entered here, is the same as that in the current year's Budget; and will, it is hoped, suffice.

21. In conclusion, I am to submit that, although the Budget for the Roads and Buildings' Branch has necessarily been framed on the limit of 9 lakhs in accordance with the previous rulings of the Supreme Government, there are not only numerous pressing requirements of the Province which call for attention, but ample funds to meet them, as already brought under notice of His Excellency the Governor General in Council in the communication as per margin. Among these may be mentioned the Water-supply scheme for Bangalore, which received the sanction of Her Majesty's Secretary of State, and the Government of India, some years since; also Water-supply for the town of Mysore; and many other projects which could be brought forward in the form of a Supplemental Budget, if deemed desirable, now, or at any time, in the course of the next official year.

I have the honor to be

Sir,

Your most obedient Servant,

R. H. SANKEY, *Lieut.-Col., R. E.,*

*Secretary to the Chief Commr. of Mysore,
Public Works Department.*

BANGALORE,
28th January 1874.

R. H. SANKEY, *Lieut.-Col., R. E.,*
Chief Engineer and Secy. to the Chief Commr.
of Mysore, Public Works Department.

No. 23, A.

COORG CHIEF COMMISSIONER'S OFFICE,
PUBLIC WORKS DEPARTMENT,
DATED BANGALORE, 20th December 1873.

From

LIEUT. COLONEL R. H. SANKEY, R. E.,
Secretary to the Chief Commissioner of Coorg
in the Public Works Department.

To

The Secretary to the Government of India,
Public Works Department,
Calcutta.

SIR,

I have the honor, by desire of the Officiating Chief Commissioner, to submit for the orders of His Excellency the Governor General in Council, the Public Works Budget for Coorg for 1874—75, framed on the limit of Rs. 97,000, as sanctioned by the Government of India (*vide* No. 661—76, A. G. dated 7th November 1873).

PARTS I & II.

2. Under Military, Rs. 10,000 have, as in the current year, been assigned by Government (*vide* No. 682—95, A. G. of 10th November 1873) and a corresponding provision made as marginally noted. The only work of any importance is the construction of a new Rifle-range at Mercara, which has been sanctioned by the Government of Madras; and as all the rest of the funds are urgently required for the Military buildings, it appears doubtful whether the grant-in-aid of Rs. 1,500, asked for by the Madras Government for improving the water-supply of the Sepoys' lines, can be spared.

3. Under "Agricultural," Rs. 1,000 has been provided, though it is doubtful whether the amount will be availed of. If not, a retransfer will be subsequently solicited.

4. For "Civil Buildings" the amount entered under Original (Rs. 9,000) is in excess of that for the current year, as it is considered most desirable to complete, if possible, the Public Offices at Mercara, to which the greater portion of the funds are intended to be devoted. For the same reason, the construction of a very urgently required Taluk Cutcherry at Somvarpet has been postponed. The provision for "Repairs" is, it will be observed, Rs. 2,000 less than that of the present year, to which exception was taken by Government.

5. Under "Communications," the amount (Rupees 9,360) has been chiefly assigned to two very essential bridges now in process of construction. Although it is confidently hoped that the Kaketodu bridge on the Periyambadi Ghat will be completed, the extreme unhealthiness of the Choranhalla work (on the Mercara-Kodlipet road) renders completion doubtful, although no effort will be spared to secure this, if possible. This last work is interesting from a constructive point of view, the arches (2 of 40 feet segmental) being composed of two narrow brick ribs, with interspace covered by stone slabs—and very economical.

PART III.

6. For "Repairs," the less provision Rupees 39,500 against Rupees 45,711 for current year, has been more than supplemented by grants-in-aid from Local Funds, and though much below the real requirements of the Province will be turned to the best account.

24. 3/13th March 1874
21. 13. 1874
21. 13. 1874

PART IV.

7. Under "Establishment" the proposed charges are Rupees 26,810 against Rupees 22,000 of the current Official year. This excess is entirely due to the fact that, for the first time in 1874—75, Coorg (*vide* your No. 411, A. G. of 31st July 1873) will be debited with a fair proportion of Direction and Account charges, which hitherto have been borne by Mysore, where, owing to this and other circumstances, the percentage of Establishment charge has been considered by Government as unduly high; in other respects, slight reductions of Establishment charge have, in fact, been effected; and it is hoped that these may be found to be compatible with efficiency.

Direction ...	Rs. 3,810
Accounts ..	" 1,565
Total Rs.....	5,375

PART V.

8. Calls for no remark.

I have the honor to be

Sir,

Your most obedient Servant,

R. H. SANKEY, *Lieut.-Col., R. F.,*
Secretary to the Chief Commr. of Coorg,
Public Works Department.

To
The Chief Commissioner in
of Mysore
1874

Sir - I am directed to
acknowledge the receipt
of a copy of the Mysore
and Coorg Public Works
Budgets for 1874-5 forwarded
with your Docket No. 585.
dated 2nd February 1874, and
to express the regret of
His Excellency the Governor
in Council that no pro-
vision has apparently
been made for completing
the approaches to the head
of the Coolor Grant, es-
pecially that from
Coolor Cuttage the utter
neglect of which has
frequently ~~been~~ ^{already} been
brought to the notice
