Proceedings of the Madras Government, Public Works Department,
16th March 1874.

3. Under Military several new works for which funds are required have been left unprovided for owing to there being no money available, and for the same reason the additional grants required for "Repairs" has not been made.

4. The sum of Rupees 303, for which application has been made on account of two wards in the Jail at Kurnool, has not been allotted, as the estimate for the work does not appear to have been sanctioned.

5. The grant applied for by the District Engineer, Malabar, for a temporary shed for sick-cart bullocks at Malliapooram was allotted in G. O., No. 2,404, of the 1st October 1873.

6. The District Engineer, Trichinopoly, applies for a sum of Rupees 2,242, on account of the Jail Superintendent's quarters at Trichinopoly, presuming that the total grant for the work amounts only to Rupees 3,000, as entered in the Budget; but as Rupees 1,400 were granted in G. O., No. 2,371A, dated 25th September 1873, an additional sum of Rupees 842 only has been allotted. Similarly, Rupees 472 are applied for on account of the Police Station-house in the Cantonment under the impression that the allotment for the work stands at Rupees 2,100, but as the full amount of the estimate (Rupees 2,572) is available* the demand has been disallowed. A sum of Rupees 2,220 is applied for by the District Engineer, Nellore, for "Minor New Works, Imperial," but as no details have been supplied the amount has not been granted.

* *Vide* G. O., No. 1,711, dated 2nd July 1873.

7. Rupees 1,685 having been appropriated† from the Reserve under "Military" for providing punkahs to the barracks of the 48th Regiment at Bellary, the sum of Rupees 1,599 asked for by the District Engineer for this purpose has been disallowed.

† G. O., No. 127, of 26th May 1873.

8. The sums (Rupees 2,295 and Rupees 383) applied for by the District Engineer, Malabar, for groynes at Cochin having been allotted in separate Proceedings‡ no appropriations are now made.

difficulty has yet been experienced, and it seems probable the cost will be much less than the amount sanctioned.

4. On the other hand, the new method will necessitate the use of a force pump in order to keep the bottom dry so as to admit of the excavation and steining being carried down to a sufficient depth below the low water level of the dry season. Such a machine must now be added to the Stores of the District for use in all cases of deep well sinking in future. Under the old system the bottom was kept dry by a sufficient number of cooly women bearing large chatties of water on their heads up the sides of the pit.

5. Arrangements will also be necessary for supplying fresh air to the workmen when the depth to water is considerable. This difficulty also was not felt under the old system by means of a large open pit.

No 2728 of 8th November 1873.	6900	569-10-4	3000	3900	Arrangements have been made with a Contractor for the execution of this work, but just before the sanction of the estimate, G. O. No 2473 of 8th October/73 prohibiting the employment of the Contractor in question (Mr Roscrow) was received and fresh arrangements had to be made. This has thrown back the work very much as the locality is one where labor is scarce. The sum named is as much as can be spent this year. The work can be completed during next year.

The D.E. of Tinnevelly originally reported that he could not utilize Rs 8000, but in G.O. No 142 of 22d Jany 1874 Rs 10000 were transferred to the East Coast Canal—

In his Statement of Savings and Demands the D.E. surrendered Rs 10000 not taking into account the transfer of ~~Rs~~ a similar amount alluded to in the Order quoted above—

The Secretary's order to take Rs 6000 in addition to the 10000 already transferred has been attended to, & the amount (Rs 6000) appropriated× to other works—

The total sum withdrawn from the original grant of Rs 20000 to the Light-Houses at Cape Comorin and Cadiapatam is Rs 16000, leaving Rs 4000 to the credit of the works—

The D.E. now surrenders Rs 8000 more — of which we have already taken Rs 6000 — Take Rs 2000 more —

Sir,

Inclosures. 8.
8. Statements.

I have the honor to forward herewith the Statement of Savings and Demands for 1873-74 and beg to offer the following explanations.

2. Under Agricultural Ininar New Works, a sum of Rs. 750 is shown as available for transfer. In my letter No. 127 of the 19th November to the Chief Engineer for Irrigation I surrendered Rs. 1200 of the District grant under this head, but in consequence of the failure of the Monsoon some works which I had anticipated having to postpone will be completed.

3. No special appropriation will I conclude be required to meet the excess expenditure of Rs. 37 on the Estimate of Rs. 1050 for the Palamcottah Post Office.

4. I have surrendered a further sum of Rs 2,000 from the allotment for the Travancore Light Houses making a total sum of Rs 10,000 given up. The sites have not yet been handed over, and in consequence of Lieut Bodoly's absence on sick leave the collection of materials has not been as rapidly pushed on as I hoped for, when in my No 144 dated 15th December I surrendered Rs 8,000.

5. A sum of Rs 4,000 was allotted in the Budget for Repairs to Civil Buildings Provincial, and Rs 400 were subsequently allotted in G. O. No 2211 dated 6th September/73, and being a special grant was surrendered by me in letter No 158 of 15th Instant. But for appropriation on several emergent repairs to Revenue and Judicial Buildings I applied in December to the Inspecting Engineer for Buildings for a further grant of Rs 500; I have received no answer to my application, but trust the Government will be pleased to allot at least Rs 300 more under this head of service to meet pressing demands.

Proceedings of the Madras Government,

Under date the March 1874.

Read the following :—

The foregoing papers give cover to the Statements of Savings and demands.

District Engineers have already received timely intimation of the works, included in the lists now under review, which they might proceed with in anticipation of specific transfers of funds. Arrangements have therefore doubtless

doubtless been already made for the utilization of the additional sums which are placed at their disposal by the reappropriations shown below.

(Here Sub. Statement)

Under Military several New works for which funds are required have been left unprovided for owing to their being no money available - and for the same reason the additional grants required for "Repairs" has not been made.

The sum of Rs. 303 for which application has been made on account of two wards in the Jail at

at Kurnool had not been allotted, as the estimate for the work does not appear to have been sanctioned.

The grant applied for by the District Engineer Malabar for a temporary shed for sick cart bullocks at Malliapooram was allotted in G.O. No. 2404 of the 1st October 1873.

The District Engineer Trichinopoly applies for a sum of Rs. 2,242 on account of the Jail Superintendent's quarters at Trichinopoly, presuming that the total grant for the work amounts

amounts only to Rs 300, as entered in the Budget; but as Rs 1400 were granted in G.O. No 2371 A dated 25th September 1873, an additional sum of Rs 842 only has been allotted. Similarly Rs 472 are applied for on account of the Police Station house in the Cantonment under the impression that the allotment for the work stands at Rs 2100 but as the full amount of the estimate (Rs 2572) is available[+], the demand has been disallowed.

A sum of Rs 2220 is applied
