Proceedings of the Madras Government, Public Works Department,
11th December 1874.

No. 218. Read the following letter from Colonel E. A. FOORD, R.E., Superintending Engineer, Bellary, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Camp at Koodi-tunny, 19th November 1874, No. 1,369:—

I HAVE the honor to submit, for the sanction of Government, an estimate of Rupees 320, with a survey and report, for the formation of an approach from the main road to the new Sub-Collector's Office at Ghooty, and for building a culvert across the side drain of the main road. The length of the approach is 250 yards. Provision is also made in the estimate for gravelling the ground around the building.

2. The work is urgently needed, as at present much inconvenience is felt for want of an approach.

3. The estimate has been countersigned by the Collector. If funds are not available I request that the work may be ordered for execution in anticipation of an allotment later in the year.

No. 219. ORDER THEREON, 11th December 1874, No. 3,480.

CIVIL WORKS, No. 15.

THE plan and estimate, amounting to Rupees 320, are sanctioned; the work to be proceeded with in anticipation of an allotment later in the year. It is observed that the approach to the new Sub-Collector's Office should have been provided for in the original estimate for that building.

2. The attention of District Engineers generally is called to the necessity of fully providing in their estimates for all requirements.

Report.

The Estimate provides for making an approach to the Sub. Collector's Cutchery recently constructed at Gooty. The road is to be 750 in length, 15 feet wide and 9 inches high, the latter being made up with 6" gravel over 3 inches metalling. A culvert is to be built across the side drain of the main road from which it starts and will be constructed according to the Plan & Estimate. The ground around the building is to be gravelled for a width of 30 feet in front & 24 feet in sides and at rear. This is absolutely necessary to render the Cutchery approachable with dry feet by the Officials equally with the necessity of keeping the foundations of the building dry.
