Proceedings of the Madras Government, Public Works Department,
18th December 1874.

No. 381. Read the following letter from Lieutenant-Colonel J. GODDARD, R.E., District Engineer, Presidency, to Colonel G. W. WALKER, R.E., Chief Engineer, Public Works Department, dated Madras, 3rd December 1874, No. 4,857:—

In obedience to the concluding clause of G. O., No. 3,066, dated 28th October 1874, I have the honor to enclose a statement showing the cadre which I would propose for the Seven Wells and the saving to be effected.

2. I have recommended the retention of the services of the Superintendent without pony allowance, as he will not have to move about so much as at present. His presence at the wells will be required, as we must work the wells each once in two days to prevent the ill-consequences of stagnation; also to conserve the place, grounds, the stores and picottahs, and to look after the cock-turners, muster and pay them.

No. 382. Order thereon, 18th December 1874, No. 3,563.

ESTABLISHMENT, No. 31.

Recorded, pending submission of the proposals of the Municipality.

2. It is remarked that the Presidency District Engineer proposes to dispense with the services of all but—

	Rs.
1 Superintendent, at	60
1 Blacksmith, at	15
6 Cock-turners, at Rupees 6	36
7 Picottahmen, at Rupees 8	56
Monthly...	167

the saving amounting to Rupees 700 a month or Rupees 8,400 a year. As the new workshops will be adjacent to the wells, it is not clear why the blacksmith should be retained.

(True Extract.)

Colonel, R.E.,
Secretary to Government.

To the District Engineer, Presidency.
