Dated	20-4-	195
		6875

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
20th April 1875.*

Read the following letters :—

No. 526. From Captain J. L. L. MORANT, R.E., District Engineer, Neilgherries, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Ootacamund, 30th May 1874, No. 167 :—

WITH reference to Public Works Order, No. 149, of the 17th March last, on Military G. O., No. 823, of the 11th idem, I have the honor to submit detailed plans and estimate as per margin for a new Lock Hospital at Wellington.

- 1 Plan of Building.
- 1 Ground Plan.
- 1 Sheet of Sections.
- 1 Estimate, No. 12, of 9th May 1874.

2. The site for this building was fixed in the Quartermaster-General's letter printed with the above Government Order, and it is with reference to that site that the accompanying plans and estimate have been prepared.

3. The estimate amounts to Rupees 13,147, and provides for a building containing a ward (50 × 20 feet) for patients, an inspecting room (20 × 10 feet), a dispensary and store-room (each 9½ × 12 feet), a matron's room (12 × 8 feet), and a bath-room (8 × 10 feet) with a front verandah (50 × 8 feet). This building is to stand in a walled enclosure in which a latrine (15 × 6 feet) and a cook-room (10 × 7½ feet) are to be erected. Without the enclosure and adjoining its gateway there is a guard-room (12 × 16 feet) with a verandah (16 × 6 feet). This guard-room is exactly similar to one near the present hospital.

4. Water is laid on by gravitation to the enclosed yard by earthenware pipes. At its point of issue near the cook-room an arched filter cistern is provided. The pure water is to be drawn by brass taps.

5. The main building is ventilated by windows in the top of the walls above the verandah swung on pivot hinges. The site is such as to allow of most of the enclosure wall being built on a lower level than the hospital itself, so that its thorough ventilation and free access to the outside air is in no way interfered with.

6. The latrine is to be so built that the faeces and liquid are separated.

7. The building in its style and general appearance has been so designed as to be in keeping with the other barrack buildings, especially with the existing hospital.

No. 527. From the same Officer, dated Ootacamund, 27th February 1875, No. 60.

- * 3 Section and Plans of Lock Hospital.
- * 1 Plan of Dresser's quarters in connection with the above.
- * 1 Detail Estimate, No. 87, for Lock Hospital .. 11,517
- * 1 Do. Estimate for Dresser's quarters in connection with the above .. 2,340
- * 1 Do. Estimate in connection with the above .. 700
- * 1 Revised Abstract Statement.
- * 1 Letter, No. 1,016, dated 18th February 1875, from the Quartermaster-General.

* Forwarded by banghy.

I HAVE the honor to submit, for sanction, plans and estimates as per margin for the proposed new Lock Hospital at Wellington, duly approved by His Excellency the Commander-in-Chief.

2. Early orders are solicited, as the work is entered in the Military Budget for 1875-76.

Proceedings of the Madras Government, Public Works Department,
20th April 1875.

No. 528. From the same Officer, dated Ootacamund, 22nd March 1875, No. 88.

In acknowledging your memorandum, No. 298, of the 16th instant, I have the honor to inform you that the guard-house has been omitted from the design under instructions from the Quartermaster-General of the Madras Army. No reply therefore seems needed on that point.

2. I have the honor to refer you to Item No. 47 under Class "C," Military, of the Imperial Budget for 1875-76, where provision appears to be made for the Wellington Lock Hospital. I have therefore again the honor to solicit early orders.

No. 529. ORDER THEREON, 20th April 1875, No. 1,116.

MILITARY WORKS, No. 10.

BEFORE passing orders on the estimates for the Lock Hospital and out-houses proposed to be built at Wellington, His

Excellency the Governor in Council resolves to refer the plans for the remarks of the Sanitary Commissioner.

2. The situation of the dresser's privy and of the bath-room of the hospital seems objectionable, as also the want of a separate bath-room for the matron. No plan of the peon's quarters has been submitted.

(True Extract.)

Colonel, R.E.,

Secretary to Government.

To the Sanitary Commissioner.
" District Engineer, Neilgherries.

The Chief Engineer
and Secretary to Government
Public Works Department
Potacamund

Sir

With reference to Public Works Order
No 149 of the 14th March last on Military
G.O. No 823 of the 11th Idem I have the

1 Plan of Building
1 Ground Plan
1 Sheet of Sections
1 Estimate No 12 of 9th May 1874 per margin for
a new Lock Hospital at Wellington

honor to submit
detailed plans
& estimate as

2 The site for this Building was fixed
in the Quarter Master General's letter
printed with the above G.O. and it is
with reference to that site that the
accompanying Plans & Estimate have
been prepared.

3 The Estimate amounts to Rs. 13,147
and provides for a Building containing
a Ward (50 x 20 feet) for Patients, an Infirmary
Room (20 x 10 feet) a Dispensary and
Store room

Storeroom (each $9\frac{1}{4} \times 12$ feet), a Matrons room (12×8 feet), and a Bathroom (8×10 feet) with a front Verandah (50×8 ft). This Building is to stand in a walled enclosure, in which a Latrine (15×6 feet), and a cookroom ($10 \times 7\frac{1}{2}$ feet) are to be erected. Without the enclosure & adjoining its gateway there is a Guard Room (12×16 feet) with a verandah (16×6 feet). This Guard Room is exactly similar to one near the present Hospital.

4. Water is laid on by gravitation to the enclosed yard by earthenware pipes. At its point of issue near the cookroom an arched filter cistern is provided. The pure water is to be drawn by brass taps.

5. The main Building is ventilated by windows in the top of the walls above the verandah swung on pivot hinges.

The site is such as to allow of most of the enclosure wall being built on a lower level than the Hospital itself, so that its thorough ventilation & free access to the outside air is in no way interfered with.

6. The Latrine is to be so built that the feces & liquids are separated.

7. The Building in its style and general appearance has been so designed as to be in keeping with the other Barrack Buildings especially with the new ones.

the existing Hospital.

Obtain early orders.

I have the honor to do,

Sir,
Your most Obedient
servant
J. M. Morant

Deputy
District Engineer

Public Works Dept.
Proceedings of the Madras Government
Under date the ... 1875.

Read the following
The Dist. Eng. Melgheries. H.E. No. 67 of 30th May 1874
The Dist. Engineer } H.E. No. 80 of 27th July 1875.
Melgheries }
H.E. No. 88 of 22nd March 1875.
G.O. No. 1116 of 20th April 1875.

Before passing
orders on the Estimates
for the Lock Hospital
and out houses proposed
to be built at Wellington
His Excellency the Governor
in Council resolves to
refer the plans for the
remarks of the Sanitary
Commissioner.

The situation of
the Duperris Dock
and of the North
River of the Hos-
pital, seems ab-
