In continuation of my letter, No 8,687, dated 7th January 1875, I have the honor to report that a further advance of Rupees 600 has this day been made to

Proceedings of the Madras Government, Public Works Department,
16th January 1875

Mr Garrett, making in all a total amount of Rupees 1,000 advanced to that gentleman since his arrival in India

No. 293C

ORDER THEREON, 16th January 1875, No 133 A

ESTABLISHMENT, No 15A.

IN the case of the three gentlemen who have to liquidate sums of £180 each on account of College fees at the rate of

£5 per mensem, it will suffice if the advances made them in this country be recovered at the same rate, making a total of Rupees 100 to be recovered monthly. The recoveries in the case of the others will be made at Rupees 50 a month.

2 Assistance may be needed in this country for equipment in tents and horses, but as the pay of the Assistant Engineers appointed from Cooper's Hill, as a rule, commences in England, and their passages are paid to this country, such advances will in future never exceed Rupees 500, or two months' pay of an Assistant Engineer of the 3rd grade. And they will be expected to join the districts to which they are appointed within one month of their arrival at Madras, fully equipped for work. With which view the District Engineers under whom they are appointed to serve will take care to communicate fully with them on the subject of their requirements, and how these may best be met.
