*Proceedings of the Madras Government, Public Works Department,
21st May 1875.*

No. 391 Read the following letter from the Hon J G COLEMAN, Officiating President, Municipal Commission, Madras, to Colonel G W WALKER, R E, Secretary to Government, Public Works Department, dated Madras, 12th May 1875, No 133-313 —

With reference to G O, No 919, dated 7th April 1875, I have the honor to inform you that the number of the population at present supplied with water from the Red Hills Lake is about 280,000

2 The districts in the suburbs not at present included in the area supplied from the Red Hills Lake have generally a sufficient source of supply from sweet-water wells, and an extension of the system of pipes on any considerable scale is not contemplated at present

3 I am still of opinion, after consulting with Mr. Lee, our Executive Engineer, that the quantity of water likely to be taken by the Municipality during the current year will fall well within my previous estimate of 6,000,000 cubic yards

The Secretary to Government
Public Works Department
Madras.

Sir

With reference to G. O. No. 907, dated
7th April 1875, I have the honour to
inform you that the number of the
population at present supplied with
water from the Red Hills Lake
is about 200,000.

The districts in the suburbs not
at present included in the area
supplied from the Red Hills Lake
have generally a sufficient amount
of supply from sweet water wells
and an extension of the system of
pipes on any considerable scale
is not contemplated at present.

I am still of opinion, after consulting
with Mr. Lee our Chief Engineer,
that the quantity of water likely
to be taken by the Municipality
during the current year will
fall well within my previous
estimate of 6,000,000 cubic feet.
