G.O. No 114 Feb-5-75

Colonel Walker has left us intimation of his views on the subject of the number of Assistant Engineers from Coopers Hill to be sent to Madras this year. Owing to the want of trained Assistant Engineers many of the young Officers who have recently come out have had to be employed on work instead of in learning their work and Colonel Walker's memorandum on Establishment arrangements will have shown how weak the Department is. This therefore suggests that the reply to Bombay Government

India should be as follows.

Eight Assistant Engineers from Cooper's hill required as a minimum - work for as many more up to fifteen as can be given.

W. 19/5/75.

It may be noticed that three young Gentlemen should be considered additional to Indian establishment until they have completed their probation [illegible]
