*Proceedings of the Madras Government, Public Works Department,
26th May 1875.*

Read the following papers :—

No. 466. From W. A. GOODCHAP, Esq., District Engineer, Kurnool, to Lieut. Colonel J. MULLINS, R.E., Chief Engineer for Irrigation, dated Camp at Nundial, 30th April 1875, No. 21.

With reference to your Proceedings, No. 319-A, embodied in G. O., No. 1,077, dated the 17th April 1875, I have the honor to report that the repairs to Vellagalapully Gungamma tank were executed in anticipation of the estimate being sanctioned, as it is situated above the Madras Irrigation Canal, and the work was considered emergent.

2. The expenditure on the tank above referred to was Rupees 660, and paid from the Agricultural Repair allotment of 1874-75.

3. As the Government in the Government order above recorded have only sanctioned Rupees 540 for the repairs to Vellagalapully Gungamma tank, I request you will be good enough to sanction the difference between the original and revised estimate, viz., Rupees 120.

No. 487.

No. 466-A. *Note by the Chief Engineer for Irrigation.*

THE District Engineer, Kurnool, is doing his best, as has been evidenced by correspondence with this office, to bring rates down to a reasonable standard, and although estimates submitted for the sanction of Government should not generally be gone on with until that sanction has been accorded, the amount of the original estimate, Rupees 660, may, under the circumstances reported, be substituted for the reduced sum of Rupees 540 considered in this office to be about right.
