Proceedings of the Madras Government, Public Works Department,
12th *June* 1875.

No. 284. Read the following endorsement of the District Engineer of Cuddapah, dated 24th May 1875, No. 444:—

From Mr. W. F. DONAGHUE, Sub-Engineer, Public Works Department, to Colonel A. S. MOBERLY, R.E., District Engineer, Cuddapah, dated Ootacamund, 18th May 1875, No. 1.

I BEG respectfully to enclose two medical certificates from the officers noted in the margin, and request you will be pleased to forward them to Government in view of obtaining my transfer from the Cuddapah District to one on the coast.

The Zillah Surgeon in charge of Cuddapah.
First-class Apothecary in charge of Kotagerry.

2. You are aware that I have suffered latterly from repeated attacks of fever; nevertheless I struggled against it, and under pressure of work have even worked when fever was on. You are also aware that all the members of my family suffered severely from sickness; that I was obliged under medical advice to send them out of the district in April, and on rejoining them on the 9th instant at Kotagerry I had the misfortune of losing my youngest child a few hours after my arrival from fever contracted in Cuddapah.

3. Under the above circumstances, and with the testimony of two Medical Officers that it would not be advisable for me to return to Cuddapah even after perfect recovery, I respectfully request you will be pleased to support this application by recommending my early removal from the Cuddapah District.

4. I have served in Tanjore for a period extending over 9¾ years (*vide* extract from service register enclosed), and at various intervals held charge of the four ranges noted in the margin, so that I am acquainted with the greater half of the district, and since I enjoyed excellent health in it, I would be glad to go back.

1. Mayaveram or Tranquebar.
2. Negapatam.
3. Nanilam.
4. Manargudi.

FORWARDED for the consideration of Government.

I do certify that M. W. J.
Donoghue, Sub Engineer in
charge of Lewisburgh Range
has been frequently under
my treatment and during
that time his arrival in
March 1874 and I can
direct to the best of my
belief and judgment
that his health has suf-
fered much from repeated
attacks of intermittent
fever during the past

by or seven months,
that his constitution
is much impaired, and
that it would be, in
my opinion, highly
expedient for him
to stay any longer in
this District, and
had he not been
provided with 3 months
Privilege Leave I
would have sent
him off on sick leave
pinks. I would not

advise him to return
to this Station even
after complete Recovery.
When Mr. Donoughue
found Consumption
he was strong and hale
he is now weak, pale
emaciated and shaken
to. His family
also have suffered
severely from [illegible]
and they were delighted
to quit Cannanore
on my account.

No 22.

Wm W. F. Donaghue, Sub. Engineer in the Department of Public Works, having asked me for my opinion regarding his health. I have no hesitation in coinciding with Zillah Surgeon Greasons opinion, viz. that his station in the Kadapah District, where he has suffered so severely from repeated attacks of fever would likely prove hazardous to his health. On his arrival at Kotagherry on the 9th instant, he was so prostrated from an attack of fever he was suffering from at the time, that he was obliged to be carried from the Cart to his bed, and although he has kept free from fever since then, yet still there is no knowing at what moment he might again become prostrated from that or other attacks.
