*Proceedings of the Madras Government, Public Works Department,
16th June 1875.*

No. 348. Read the following letter from R. SMITH, Esq., Officiating Superintending Engineer, Nellore, to Lieutenant-Colonel J. MULLINS, R.E., Officiating Secretary to Government, Public Works Department, dated Nellore, 28th May 1875, No. 21 :—

WITH reference to paragraph 5 of G. O., No. 1,313, dated 8th May 1875, directing me to explain why the estimate for the Atmakur Taluq Cutcherry was not included in the Budget list for the current year, I have the honor to report that it was omitted in consequence of the balance of the original estimate having been allotted for expenditure in 1874-75, and I was under the impression that entries in the Budget should be confined to sanctioned estimates.

No. 349. ORDER THEREON, 16th June 1875, No. 1,692.

CIVIL WORKS, No. 40.

THE circumstance that the balance of the original estimate for the Atmakur Taluq Cutcherry had been allotted last year did not justify the District Engineer in excluding the work from his budget list for the current year, seeing that he was aware that a supplementary allotment would be necessary to complete the building. It was the more necessary that he should bring forward a demand for such allotment since his delay in submitting the revised estimate prevented its sanction in time for record in the Budget Department before the details of the Budget were finally settled. No provision for the completion of the building can be made at present.
