Proceedings of the Madras Government, Public Works Department,
17*th June* 1875.

No. 374. Read the following letter from Colonel F. J. MOBERLY, R.E., Superintending Engineer, Chingleput District, to Lieut.-Colonel J. MULLINS, R.E., Chief Engineer for Irrigation, dated Guindy, 2nd June 1875, No. 785 :—

I REGRET to observe that a mistake was made in paragraph 2 of my No. 4,002, dated 24th February last in writing "sanctioned" instead of "revised" estimate, and thus causing a difficulty in your remark on which G. O., No. 1,269, dated 5th May, was passed.

2. The bridge, if built as originally designed, would cost Rupees 11,620, and by lowering three feet only Rupees 11,120, but still Rupees 820 above the sanctioned amount.

3. I shall be glad to be instructed in what proportion this excess amount is to be paid by the Local Fund Board and by the Chembrumbaukum Project.

4. I request the return of the plan forwarded with my No. 4,424, dated 24th March 1875.

No. 375. ORDER THEREON, 17th June 1875, No. 1,706.

IRRIGATION, No. 33.

As it appears from the foregoing letter that the bridge in the 20th mile of the Western Trunk Road will, with the lowered roadway, cost Rupees 820 more than the sanctioned estimate of Rupees 10,300, the revised estimate of Rupees 11,120 is approved, and the contribution* from Imperial Funds, Agricultural, chargeable to the Chembrumbaukum Tank Project will be raised from Rupees 5,150 to Rupees 5,560.
