*Proceedings of the Madras Government, Public Works Department,
28th June 1875.*

No. 538. Read the following letter from Major J. BEATTY, R.E., District Engineer, Godavery, to Lieutenant-Colonel J. MULLINS, R.E., Officiating Secretary to Government, Public Works Department, dated Dowlaishweram, 7th June 1875, No. 801 :—

WITH reference to G. O., No. 1,212, of 30th April 1875, regarding the Storekeepers and store-sheds required at Rajahmundry, Dumagudem, and Tarlagudem, I have the honor to point out that my proposal was given in paragraph 8 of my previous letter printed with G. O., No. 421, of 15th February 1875.

2. The transfer of the Dumagudem Range to this district has since been effected, and the required accommodation and supervision of the landing and shipping of cargo at Rajahmundry and Dumagudem will now be provided by means of existing establishments, &c.

3. But Tarlagudem is upwards of 70 miles beyond Dumagudem, and a store-shed and Storekeeper are required there. A large shed to provide the shelter needed may be built for 50 to 100 Rupees, and I propose to give the Storekeeper 30 Rupees a month, and one per cent. on all freights brought to the steamer there.

4. The Storekeeper will have the shed built, and it will be under his care. The steamer on each trip will bring up laden barges, and take away others waiting loaded for her. Between the departure of the steamer from Tarlagudem and her next arrival there, the barges brought up on the previous trip will be unloaded and loaded again with such goods as the Storekeeper can get ready to be sent down the river.

5. In this manner there will be, during the time the steamer is running, a person always on the spot to give information ; barges loading or unloading ; and a shed to protect goods from damage by the weather, while awaiting shipment, or carriage to take it inland.

6. At present the steamers have to create a trade ; when that is made, doubtless private individuals will take up the work and provide steamers, Storekeepers, and sheds ; but this will not be for one or two seasons yet. At present the merchants of Cocanada are just beginning to take an interest in the navigation of the river.

7. Pending further instructions from you, I have requested the Executive Engineer at Dumagudem to make the necessary arrangements.

No. 539.

ORDER THEREON, 28th June 1875, No. 1,790.

CIVIL WORKS, No. 58-A.

THE proposals of the District Engineer, Godavery, to erect a store-shed at Tarlagudem at a cost not exceeding Rupees 100, and to employ a Storekeeper on Rupees 30 per mensem in addition to 1 per cent. on all freights brought to the steamer, are sanctioned, on the understanding that, as directed in G. O., No. 1,212, dated 30th April 1875, Government is to give way to private agency as soon as possible.

Proceedings of the Madras Government, Public Works Department,
28th June 1875.

2. The expenditure will be met from the Budget allotment of 5,000 Rupees
under "Provincial * Communications,
* "Repairs." Navigation Works," Godavery District.
