*Proceedings of the Madras Government, Public Works Department,
3rd July 1875.*

No. 98. Read the following endorsement of the Acting Secretary to Government, Revenue Department, dated Ootacamund, 17th June 1875:—

Read the following Proceedings of the Board of Revenue, dated 11th June 1875, Miscellaneous No. 5,232.

Read the following letter from R. J. MELVILLE, Esq., Acting Collector of the Chingleput District, to H. E. STOKES, Esq., Acting Secretary to the Board of Revenue, dated Saidapet, 4th June 1875, No. 312.

I HAVE the honor to request that the Board will obtain sufficient funds to meet the compensation claims in connection with the Chembrambaukum Project, as the funds now available for the purpose seem quite out of proportion to the requirements of the year.

2. The balance of claims settled last year, and remaining to be satisfied on the 1st April last, amounted to Rupees 3,045-2-9, and since then the Special Deputy Collector has disposed of further claims amounting to Rupees 7,481-1-6, or Rupees 10,526-4-3 in all. On my asking the Superintending Engineer as to what funds were available in the Budget allotment for compensation under the project this year, he stated, in his No. 522, dated 12th ultimo, (copy herewith sent,) that a sum of Rupees 5,838-9-10 is all that is available for expenditure this year. I have already sent bills for Rupees 3,045-2-9, which leaves only a small balance of Rupees 2,793-7-1. But as this sum is quite insufficient to meet the claims already settled, and as I understand from a statement lately furnished by the Special Deputy Collector that a sum of at least Rupees 40,000 will be required for disbursement during the remainder of the current official year, I have the honor to request that the Board will take steps to obtain a further grant for Rupees 40,000 to meet the claims already settled and those which may be settled hereafter.

From Colonel F. J. MOBERLY, R.E., Superintending Engineer, Chingleput, to R. J. MELVILLE, Esq., Collector of the Chingleput District, dated Guindy, 12th May 1875, No. 522.

In continuation of my letter No. 349, dated 28th ultimo, I have the honor to observe that the Executive Engineer in charge of the Chembrambaukum Lake Project reports that a sum of Rupees 5,838-9-10 is available for disbursement during the current official year, on account of compensation for lands taken up for the waterspread of the above lake.

SUBMITTED for the orders of Government.

ORDER THEREON, 3rd July 1875, No. 1,879.

IRRIGATION, No. 9.
Account.

" " 1,942, " 15th April "

The Government observe that under the orders marginally noted bills and registers for land compensation, countersigned by the Superintending Engineer, should be sent to the Controller for adjustment under the rules, and it will then be the duty of that officer to report to Government what arrangements are necessary to the provision of funds. It is to be noticed further that the Chembrambakam Tank Project expenditure on this account for the year should have been provided for by the Superintending Engineer, Chingleput, in communication with the Collector, distinctly in his Budget estimates, whereas there is no entry whatever for land compensation in the Budget, Part III, against this project, and according to the details there given no expenditure on this account had been or was expected to be incurred up to the 31st March last. Colonel F. J. Moberly will explain the omission.

2. It being probable that application will have to be made to the Government of India for a special grant under Ordinary, it is necessary that a very careful estimate of the probable outlay of the year should be prepared, especially as there has been great delay in the settlement of land compensation, and funds available in former years have lapsed in consequence.
