4. This leaves Rupees 2,600 still at the disposal of Government, which will be reserved to meet unforeseen contingencies.

5. His Excellency the Commander-in-Chief explains that the works noted in the margin, included in the above list, are of an emergent character. The Superintending Engineer, Chingleput, will accordingly push these works on to completion as rapidly as possible.

Providing granite floors to Nos. 1 and 2 Wards in the temporary Hospital at Poonamallee.
Inproving the Poonamallee Fort Ditch near the Hospital.

6. There is a balance of Rupees 11,490 available under "Repairs, Military," which will be retained to meet demands from District Engineers during the year.

7. Under Provincial, the total demands amount to Rupees 2,49,895, to meet which only Rupees 1,745* are available. The original grant for the year was so limited as compared with the works to be provided for that it was found impossible to set aside any amount as a reserve. It is noticed however, that applications are made for additional allotments for some works for which there is already Budget provision, and District Engineers will be informed that these allotments cannot be granted, and that they must restrict expenditure to appropriations granted in the Budget. Deducting these items and also sums below Rupees 500, for which no specific allotments are requisite, the demands for "Incomplete Works" (which cannot be put a stop to) in addition to "Repairs" and "Tools and Plant," amount to Rupees 70,236. The question of providing funds to meet these demands will be referred to the Financial Department:—

that these allotments cannot be granted; and that they must restrict expenditure to appropriations granted in the Budget.
