OOTACAMUND,
23th June 1875.

(Signed) JOHN MULLINS, Lieut.-Colonel, R.E.,
Officiating Chief Engineer, P.W.D.

SUBMITTED for the information of Government.

2. The expenditure on repairs shown may not be an accurate index of the progress made, but so far as it is a guide it would seem that in many districts there is not that proper continuation of work at the commencement of a new official year, which, seeing that it occurs in the middle of the best working season, is not only desirable but essential to the efficient management of this class of expenditure.

3. The outlay on Minor New Works being but little more than half the required average is very far from satisfactory. Estimates to the amount of more than half the grant had been sanctioned ; so good progress ought to have been secured.
