Public Works DEPARTMENT

G.O. No.	2040	Press
B.P. No.		Mis.
Dated	17-7-	195

Not to be folded or roughly handled

170

*Proceedings of the Madras Government, Public Works Department,
17th July 1875.*

No. 453. Read the following endorsement of the Secretary to Government, Revenue Department, dated Fort St. George, 12th March 1875 :—

Read the following Proceedings of the Board of Revenue, dated 20th February 1875, No. 408.

Read the following letter from G. D. LEMAN, Esq., Collector of the Kistna District, to J. GROSE, Esq., Secretary to the Board of Revenue, dated Guntur, 11th January 1875, extra No. 6 :—

I HAVE the honor to forward the plans* and estimate for the improvement of the Huzur Cutcherry at Masulipatam.

* Sent separately by banghy in a tin case. 2. The plans have been made by the Department Public Works after consultation with me, and have my approval.

3. Ample space will be provided for all the offices in the building as improved.

4. The cost finds a place in the Budget of 1874-75.

—
ENCLOSURES Nos. 1 to 3.—Plans.

—
ENCLOSURES Nos. 4 to 12.—Estimates.

—
ENCLOSURE No. 13.—Specification Report.

SUBMITTED to Government, with reference to G. O., dated 18th June 1874, No. 1,638, Public Works Department.

2. The general plan was approved by Government in G. O., 3rd March 1874, No. 297.

(A true Copy and Extract.)

(Signed) H. E. STOKES,
Acting Secretary.

TRANSFERRED to the Public Works Department, with reference to the Government Order in that Department referred to by the Board.

(Signed) D. F. CARMICHAEL,
Secretary to Government, R.D.

KISTNA DISTRICT.

Supg. Engr., 1st Division, Kistna.

No. 454.

ORDER THEREON, 17th July 1875, No. 2,040.

CIVIL WORKS, No. 32.

G. O., 30th March 1871, No. 535, R. D.
" 17th Aug. 1872, " 1,214, "
" 4th April 1873, " 389, "
" 3rd March 1874, " 297, "
" 18th June 1874, " 1,638, P. W. D.

THE question of the improvements required to the Huzur Cutcherry at Masulipatam has been fully discussed in the correspondence contained in the Proceedings of Government marginally noted, and the general plan now submitted for sanction was approved by Government in their Order of the 3rd March 1874, No. 297.

2. By the present arrangement, the roof of the main building, except over the two rooms in rear, together with the verandahs, will be removed, and the walls lowered to a height of 13 feet. An upper storey will be constructed containing three rooms corresponding to those immediately below, and new verandahs will be added to both flats. The main room on the upper storey measures 28' 6" x 30', and each of the side rooms 18' 3" x 19' 9". There are, besides, two bath-rooms at the angles of the rear verandah which communicates with the terraced roof of the two rooms left at the original level. The verandahs around the upper and lower rooms are 10 feet wide, and supported on Tuscan columns with a pediment in front. Accommodation is thus afforded on the upper floor for the Collector, his Assistant, and the Treasury Deputy. The lower floor will be occupied by the office establishment. A wooden staircase on each side of the building gives access to the upper floor. The two rooms of the main building in rear will be extended on either side a distance of 60 feet, so that two additional rooms, each 60' x 18', will be provided for the English and Vernacular records forming two wings retired from the centre portion of the general front. These wings are provided with tiled verandahs 9 feet in width also carried on Tuscan columns. Two staircases afford means of communication between the lower rooms thus extended and the upper floor of the main building. Behind the right wing, but at right angles

*Proceedings of the Madras Government, Public Works Department,
17th July 1873.*

to it, will be erected a detached building containing three rooms and surrounded by a verandah 6 feet in width. These rooms will serve as store-room, treasury, and cash-keeper's room, and measure respectively 16' x 19' 10", 25' x 19' 10", and 18' x 19' 10".

3. The building at present containing vernacular record and press rooms, and occupying a position behind the left wing corresponding to that proposed for the one behind the right wing, will be altered so as to afford better accommodation. The two rooms will be thrown into one and the outer walls will be raised; the sloping roof which was continued over them in advance of the inside walls and provided with skylights will be cut off near the main walls, and the intermediate space will be terraced. Seventeen double-venetianed and glazed windows are provided to light the interior. The existing covered passage, 6 feet wide, running from the centre of the press building to the site of the proposed treasury, will be converted into waiting-sheds and record rooms. A public latrine is provided for on the standard plan approved for Taluk Cutcherries.

4. The cost of the several alterations and additions which have been noticed is estimated as shown below:—

	RS.
Alterations and additions to the main building ...	21,680
Alterations to the Press Office ...	2,430
Do. Cash-room, &c. ...	6,170
Do. Waiting-sheds ...	570
Estimate for Public Latrine ...	840
Do. Staircases ...	2,640
Total ...	34,130

Ample accommodation is provided, and the connection of the old and new work seems to have been judiciously arranged.

It is observed that in some cases chunam floors have been provided, which is contrary to the Orders of Government of the 9th September 1868, No. 2,881. Unless in situations where matting is used, the arrangements must be altered, and tiles, stone slabs, asphalte, or wooden floors substituted.

5. The rates in the abstract estimate are generally somewhat higher than those for apparently corresponding work in the range schedule, especially in the item of venetian and batten doors, and they should cover the cost of thoroughly good workmanship in all the details.

The general estimate is sanctioned, but no funds are available at present.

6. It will be considered in the Financial Department whether a special allotment of Rupees 10,000 can be made for the work during the current year, which might be expended in the construction of the cash-room, waiting-sheds, and public latrine, and in the alterations to the press room. If found impracticable this year, provision should be made to that extent in 1876-77.

To
Mr. Walden

Memo for Mr. Pope. Letter Dept.

The estimate of the Hager (Catching)
Mesulipalium has been sent
up, but there is nothing to show
that it has been examined in
accordance with the written instructions
given by me except that an
abstract of quantities for the Latin
is compared with the quantities in
the Standard. A comparison
of rates should have been made
with the Schedule rates in Standard.

Let the accompanying form be the basis of the examination.
And it should be stated that
the instructions have been attended to
to even if nothing wrong is
found.

Chief

There is a Government order
checking that Churnam flows
are not to be used but no
notice is taken of it. All General

Orders affecting Construction
as well as those referring to
standard plans should be
collected & indexed & be

 Letters from Sup^r Eng^r Christian
 26 June 5/1/75 21 June 1874 - No 1691

2. By the present arrangement the roof of the main building, except over the two rooms in rear, together with the verandahs will be removed and the walls lowered to a height of 13 feet. An upper story will be constructed containing three rooms corresponding to those immediately below and new verandahs will be added to both flats.

The main room on the upper story measures 28'-6" x 30' and each of the side rooms 18'-3" x 19'-9". There are besides two bath rooms at the angles of the rear verandah

23
verandah which communicates with the terraced roof of the two rooms left at the original level. The verandahs around the upper and lower rooms are 10 feet wide and supported on Tuscan columns with a Pediment in front. Accommodation is thus afforded on the upper floor for the collector, his Assistant and the Treasury Deputy. The lower floor will be occupied by the office establishment. A wooden stair case on each side of the building gives access to the upper

upper floor. The two rooms of the main building in rear will be extended on either side a distance of 60 feet so that two additional rooms each 60' x 18' will be provided for the English and Vernacular records forming two wings retired from the centre portion of the general front. These wings are provided with tiled verandahs 9' in width also carried on Tuscan columns. Two stair cases afford means of communication between the lower rooms thus extended and the upper floor

37A 24
floor of the main building. Behind the right wing but at right angles to it will be erected a detached building containing three rooms and surrounded by a verandah 8' in width. These rooms will serve as store room, treasury and cash keepers room and measure respectively 16' x 19'-10", 25' x 19'-10" and 18' x 19'-10".

3. The building at present containing vernacular record and Prep rooms and occupying a position behind the left wing corresponding

to

to that proposed for the
one behind the right wing,
will be altered so as to
afford better accommo-
dation. The two rooms
will be thrown into one
and the outer walls will
be raised; the sloping
roof which was con-
tinued over them in ad-
vance of the inside walls
and provided with sky
lights will be cut off
near the main walls
and the intermediate
space will be terraced.
Seventeen double venetian
ed and glazed windows
are provided to light
the interior. The existing
covered passage 6 feet
wide running from the
centre

25
centre of the Prof build-
ing to the site of the
proposed treasury will
be converted into waiting
sheds and record rooms.
A public latrine is
provided for, on the
Standard plan approved
for talug catchments.

4. The cost of the
several alterations and
additions which have
been noticed is estimated
as shewn below

Alterations & additions to the main building —	21,030
Alterations to the Prof Office	2,430
— do — Cash room &c.	6,170
— do — Waiting sheds	370
Estimate for Public latrine —	840
do Stair Cases —	2640
	<u>34,430</u>

Ample accommodation is
provided

provided and the connection of the old and new work seems to have been judiciously arranged.

It is observed that in some cases chunam floors have been provided which is contrary to the orders of Govt of the 9th September 1868, No 2881.

Also in situations where matting is used the arrangements must be altered and tiles, stone slabs, asphalt or wooden floors substituted.

5 The rates in the abstract estimate are generally somewhat higher than those for apparently corresponding work in the Range Schedule especially in the item of Venetian and Batten doors and they should

Cover the cost of thoroughly good workmanship in all the details.

The general estimate is sanctioned but no funds are available at present.

P It will be considered in the Financial Dept. whether a special allotment of Rs 10,000 can be made for the work during the current year which might be expended in the construction of the Cash room, waiting sheds and Public latrine and in the alterations to the Pref room. If funds impracticable this year provision should be made

to that extent in 1876-77
