No. 476. ORDER THEREON, 20th July 1875, No. 2,051.

ACCOUNT, No. 20.

IT is observed that the preliminary operations in connection with the Cocanada Lighthouse were carried out by Mr Wells' Agent in communication with the Marine Department, to whom the funds for the work were transferred in G. O, No 357, dated 25th September* 1874 (Marine). In subsequent Proceedings† the cost of the stores used was ordered to be debited to Port Funds, pending final adjustment It does not seem necessary at present to take into account the cost of the pile and screws sent out from England, which were designed to be utilized on the permanent structure Only the freight charges need be dealt with now, and particulars of these have apparently been received by the Accountant-General.
