*Proceedings of the Madras Government, Public Works Department,  
26th July 1875.*

Read the following papers —

No 774

MEMORANDUM

No. 698

LAST year the District Engineer, North Arcot, proposed certain alterations in the Conservancy Establishment attached to the Poiny anicut, involving an increase

No 1,774, 22nd September 1874

No 858, 22nd October

information as to length of channels, cultivation, revenue, &c In reply he obtained from the Collector and transmitted the statement, dated 2nd July 1875, which,

No 731, 29th May 1875

although not complete, shows that the length of channels is about  $48\frac{1}{2}$  miles, that the area of irrigation in 1873-74 was acres 15,925 and the revenue Rupees 75,188, while against an average assessment of Rupees 31,433 for the five years prior to the construction of the anicut, the average of the nineteen years subsequent thereto, up to 1871-72, has been 51,952, and, as above shown, the income of 1873-74 was Rupees 75,188

2 The Capital and Revenue Accounts, which are under compilation, will show more completely the financial position of this work, but it appears to be proper, with reference to the foregoing information, to accede to the District Engineer's request to re-arrange the establishment in accordance with the scale mentioned in his letter of the 24th ultimo, No 1,161; and for this a revised tabular statement is enclosed The saving of Rupees 3 a month on the Cauverypauk Tank Establishment, referred to in paragraph 3 of this letter, is not available as a set off against the increase recommended for the Poiny anicut, because the Budget provision for the former is Rupees 12, and not Rupees 15 The revised proposals, therefore, involve an increased monthly charge of Rupees 5-8-0 The Monegar is deserving of a moderate increase of pay, and that of the Lascars is at present too low to make the appointments popular and to secure attention to the duties to be performed.

OOTACAMUND,  
17th July 1875

(Signed)

JOHN MULLINS, Lieut-Colonel, R E,  
Officiating Chief Engineer

No 698-A. From W. LEGGATT, Esq, A I C E, Officiating District Engineer, North Arcot, to Major J. O. HASTED, R E, Officiating Chief Engineer for Irrigation, dated Vellore, 24th June 1875, No 1,161 —

In resubmitting the statement returned with your memorandum, No 621, of the 8th instant, I have the honor to inform you that the additional information required

1 Statement

regarding maintenance charges is given therein in a foot-note.

2. The authority for the arrangement reported in Captain Pennycuik's letter (paragraph 3) is G. O, No 2,785, dated 31st August 1868, as that order could only have effect on the condition that "present incumbents are not affected by it"

3 I have, however, to report that since the date of my letter, No 731, of the 29th ultimo, it has been found necessary to punish by reduction one of the Monegars in this
