Public Works DEPARTMENT

G.O. No.	2154	Press
B.P. No.		Mis.
Dated	27-7-	28 75 195

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
27th July 1875.*

Read the following letters.—

No. 710. From R. F. CHISHOLM, Esq, Consulting Architect to Government, to Colonel G. W. WALKER, R E, Secretary to Government, Public Works Department, dated Chepauk, 10th February 1875, No. 453

I HAVE the honor to submit a revised plan for the proposed new Telegraph Office, Ootacamund.

2. The accommodation is similar to that drawn up by the Director-General of Telegraphs, with the proportions altered slightly to suit a double storey plan. The store-rooms will be constructed with the out-buildings.

No. 710-A. From Lieutenant-Colonel R. MURRAY, Officiating Director-General of Telegraphs in India, to Lieutenant-Colonel J MULLINS, R E, Officiating Secretary to the Government of Madras, Public Works Department, dated Simla, 11th June 1875, No. 386.

REFERRING to Resolution of the Madras Government in the Public Works Department, No. 1,037, dated 15th April 1875, respecting the provision of a site for the proposed new Telegraph Office at Ootacamund, I have the honor to forward in

original,* for the consideration of the Madras Government, a letter and its enclo-

* Return solicited
sures from the Superintendent, Malabar Coast Division, respecting a proposal made to him by Messrs. Framjee and Co. of Ootacamund to build a suitable office in a position considered by him to be most favorable, provided certain advances are made to them.

2. No funds are available in this department for the purpose, but should the Government of Madras view the proposal with favor they will, I trust, be able to make the necessary advance, or should this be found impracticable I will apply to the Government of India for a special temporary allotment.

No. 711. ORDER THEREON, 27th July 1875, No. 2,154.

CIVIL WORKS, No. 47-A.

THE Honorable the Governor in Council considers that if a suitable building for a Telegraph Office cannot be rented or purchased, an office should be constructed at the cost of the State rather than an advance made to private parties to erect a building to be rented by Government.

2. The Commissioner, Nilgiris, will be instructed, in the Public Department, to expedite the report called for in G. O, No. 494, dated 20th April 1875, in that Department, on an alternative site.

3 The District Engineer will report, as early as possible, on the feasibility of combining a Telegraph Office, providing similar accommodation to the design now submitted, with the existing Post Office.

(True Extract.)

Major, R.E.,
Offg. Joint Secretary to Government.

To the Public Department.

„ District Engineer, Nilgiris, with plans.

„ Director-General of Telegraphs in India, with 8 enclosures.

chores to occupy it. Struck my head to induce

Copies of correspondence on the subject
of erecting a Telegraph Office at Botac
mud on Francisco Hill by Francisco Heiser-
man & Co.

From No 282
The Superintendent
Malabar Coast Division
To The Director General
of Telegraphs in India

Dated Calicut 27 April 1876

Sir,
In continuation of my No 3918 dated 27 March
last para and with reference to the accompanying
correspondence &c I have the honor to report that
when going about in search of a suitable house for
an Office or a site to build on, I came upon a spot
which in my humble opinion is in every way well
suited for our purposes. The advantages of the
situation are by no means exaggerated in Messrs
Francisco's letter of the 17 instant as it is literally
in the heart of the business quarters at Botacmud
I beg therefore to enquire whether the Government is
willing to agree to the terms on which Messrs Francisco
offer to erect a building and to let it as a Telegraph
Office for Rs 600 a month as long as Govt may
choose to occupy it. I trust my best to induce

145 them to sell the piece of ground to Government but without
arriving. They say, and justly, that it would affect
the value of the remainder of the Hill and the house
as it is the want of this wishing to dispose of their
property.

As regards the conditions, care will have
to be taken in drawing up an agreement. The advance
asked for could be given by instalment, and
Govt. could occupy the building and force and
hold the title deeds till the amount advanced
is fully recovered.

Such a building the V. B. M. S. P. could never
be able to build for Rs. 10,000 I believe. The interest
of that amount would at Govt. rates be say Rs. 500
and it would cost the V. B. M. S. P. Rs. 500
or Rs. 900 more annually to keep it in repair, so it
would be 25 percent cheaper to rent.

I am, Sir,
Yours faithfully,
H. C. Darling
Offg. Superintendent

No. 31

The Superintendent

Pondicherry
Colacannur

Dated Calicut 3 April 1875

I am, Sir,
Yours faithfully,
H. C. Darling

about building an Office for this Dept. on the hill
owned by Govt. I also indicated the spot where it
would be advisable to place the building and gave
you some idea of the accommodation that would
be required.

I have now the honor to request you will
be good enough to inform me if you are inclined
to erect a house for the purpose mentioned at
a monthly rent of Rs. 100 or the maximum amount
sanctioned by Govt. for Colacannur. If so will
you please say when you think the building
would be ready for occupation. I may add that
as the position is favorable, the telegraph Office
would most probably be permanently located
there, but I have no doubt Govt. would be
prepared to occupy the house on a long lease.

Press of work has prevented my writing
to you in this matter sooner.

I am, Sir,
Yours faithfully,
H. C. Darling
Offg. Superintendent

Calicut

Dated Colacannur 7 April 1875
Sir

In reply to your letter of the 3rd Instant
 and with reference to our conversation at Raj
 Shree the honorble. state that I am most willing
 to undertake the building of a Telegraph Office
 on the site indicated in Transfer Bill, upon
 the conditions already verbally proposed by
 1. That Govt. would be pleased to advance
 Rs. 5000 or say at least 3% of it on an interest
 of 5% per annum.
 2. That I shall undertake to build the
 premises according to the plan and dimensions
 you have furnished me with.
 3. That if immediate sanction is accorded
 I shall at once commence cutting brick and
 have the building completed in 4 or 5 months
 from date of sanction.
 4. That Govt. can have a lien on the property
 until the advance with interest is repaid & that
 by instalments or deduction of rent.
 5. That the lease should extend for
 a period which would enable me to redeem the
 property by payments of rent, allowing Govt. the
 right of extending it to any period beyond that
 term.

Any early answer will oblige.

I have &c
 James Messersong & Co.
 No 118

To the
 The Superintendent
 Malabar Coast Division

Messrs James Messersong & Co.
 Calicut
 Dated Calicut the 10th of April 1876

Sir,
 With reference to your letter of the
 3rd Instant, will you do me the favor to furnish me
 as early as possible with a rough ground plan of
 the building you propose erecting for a telegraph
 office and arrange to be able to submit a complete
 case for the consideration and order of the Director General
 of the Telegraphs in India.

I must mention that a good sized portion
 will be necessary and there should be two approaches to
 the building, one from the direction of the River
 and the other from that of the station &c.

I have &c
 J. H. Darling
 Offy. Superintendent

Dated Calicut 17th April 1876
 J. H. Darling Esq.
 District Engineer & Superintendent of Telegraphs
 Malabar Coast Division
 Calicut
 We have the honor to acknowledge the receipt of
 your

your letter of the 10th Instant, and to submit herewith
the accompanying Plan and Estimate for the proposed
Telegraphic Office, to be built by us, on Francis Hill
Okehammed.

1. To the plan and the Estimate have been carefully surveyed by a practical Engineer, and in our opinion, if Government were to undertake such a building, the cost would not be less than twice the amount laid out on the Estimate; but as we have promised you to do so, we will not now hesitate to venture upon it; taking the consequences on ourselves and, if you could obtain the sanction of the Director General of Telegraphs and order to the project; and the advances proposed in our previous communication, viz 2 thirds of the estimated value, without delay we will be able to commence the building against the approaching monsoon, which would otherwise greatly retard the work (especially in brick making);

Considering the Village, and the time it would
take to build it by returns, we consider we should be just
in claiming the same rent as you offered. Mr. Williams
for his premises, viz Rs 30 per month, which however has not
the advantage of the situation, as the proposed one would have,
in Spring Hill. Being in a central position, and sur-
rounded as it would be by all the Officers both private and
public, you could not have chosen a better site for such a
building, and thus have been well rewarded, without flattery
by many, who have thrown in your picture.

He could have as many off roads to the homes as may be required, to the Carriage and bridle roads, and in fact the plan would be open to access on every side.

In conclusion, confirming the other conditions

I have the honor to acknowledge the receipt of your letter of the 1st instant, and to return
 the favor of your early commands.
 I have the honor to acknowledge the receipt of your letter of the 1st instant, and to return
 the favor of your early commands.
 I have the honor to acknowledge the receipt of your letter of the 1st instant, and to return
 the favor of your early commands.

No. 210

From No 210

The Superintendent
Malabar Coast Division
Messrs. Sampson & Co.

Calcutta, 25 April 1875.

I have the honor to acknowledge receipt of your letter dated 17 Instant enclosing plan & estimate for building a Telegraph Office on your hill, and with reference to para 3, which is informed if you are stipulate for Rs 1000 80/- per month as rent. If so the matter must be allowed to drop. I informed you in my letter No 21 of the 3 Instant that the maximum rent sanctioned by Govt. in Raffles bazaar you were misinformed regarding my having offered Mr Williams Rs 1000 80/- a month for his house.

The Battery room is misplaced in the plan, and there is no service. The furnace can be remedied by a different arrangement of the back rooms and the latter you will doubtless have no objection to put up; but there must be no misunderstanding about the rent. It would not do for me to send up the proposal to the Director General when there

there is the least faint doubt on any point connected with it.

I regret this delay but it is not my fault.

I have &c
J. B. Darling
Offg Superintendent

Calcutta 25 April 1875.
J. B. Darling Esq.
Offg Superintendent of Telegraphs
Calcutta

Sir, I have the honor to reply to your letter of the 21 Instant.

It was in consideration of the large outlay that we were induced to demand the 80/- per month as rent for the proposed Telegraph Office; but since the matter has turned around a feasible basis, and you are determined to pay the matter clear before the Director General we may as well content ourselves with the 60/- per month and provided the sanction could be at once obtained, and the advance made to us without delay.

The attention in the Battery room, and the addition of a Notice we shall undertake to make. Begging you will favor

favored with a reply as soon as the matter
 is settled by the Director General. I am,
 yours truly,
 J. H. Thompson

Oct 30/74

We adopt the suggestion

With reference to the site
for a Telegraph Office proposed in
the letter recorded with Public
Department Order No. 185 of 17th
February, the Chief Engineer has
the honor to observe that cross
sections of the ground, such as
were submitted, should have
been called for by the architect/
Architect & Co., to enable him
to adapt his design to the site.
The Plan proposed is quite in-
suitable for the locality, there
being a fall of 13 feet in 63
in the main building site, and
of 10 ft in 63 in that of the
office; besides a heavy cross
fall of 1 in 9.

The area required is less than
half that originally proposed being
only 100 yards by 40 yards, not

1 1/2 Acres. The site, if adhered to, should be taken up by the Act being not nearly so valuable for building purposes as its central position would appear to make it, owing to its excessive slope.

It is suggested that the Consulting Architect, who will shortly be in Calcutta, should be asked whether by placing an additional story on the existing Post Office the requisite accommodation might not be cheaply obtained; and as soon as approved, be converted into a pleasing subject.

Wm. Matheson M.A.

Chief Engineer
S.D.P.

Calcutta
September 1875

Public Works Dept.

Letter from the Consulting Architect to Govt.
No. 153 dated 10th February 1875.
Director Genl of Telegraphs in India
No. 380 of 11th June 1875.

I have not had time to write a full report yet.

I cannot say that the idea that Mr. Matheson also should build a Telegraph office & rent it to Govt. commends itself to me.

If the Govt of India want a new Telegraph office - they had better find the money & let the S.P. build it & let the Govt. materials suited to this climate.

W.M.

I am very much interested in the matter of building a new Telegraph office in Calcutta. I have been thinking of this for some time, and I am sure that it is a very important matter. I have been thinking of building a new office in Calcutta, and I am sure that it is a very important matter. I have been thinking of building a new office in Calcutta, and I am sure that it is a very important matter.

Submitted for

1. Mr. Matheson Matheson agrees to build a Telegraph office, as per enclosed plan, approved by the Director General of Telegraphs, in Mr. Matheson's Bill and sent it to Govt. for Rs 20 per annum, on certain conditions, the principal of which are that Govt. will advance them Rs 2000 or 3 of the estimated cost of

1. of the building, at interest
2. of 5 per cent per annum,
b. Govt. having a lien on the
property until the advance
with interest is repaid
c. either by instalments or
deductions of rent, and
that the lease should
extend for a period which
will enable them to redeem
the property by payments
of rent.

2. Mr. Francis's
estimate amounts to
Rs. 8,500, but does not
allow for a portico and
certain alterations in the
back rooms, which however
they agree to add. The
cook room accommodation
is very defective and
requires to be increased.

Supposing

Supposing the cost of the
building altogether to
be 9,000 Rs., the rent
would return them 8
per cent per annum.
It is observed that
their estimate does not
allow for the use of
chunam even in the
chimneys, the building
is to be of brick in mud
throughout.

3. The estimated cost
of the building by the
District Engineer, allow-
ing for chimneys and
arches over doors and
windows of brick in
chunam and otherwise
brick in mud is, Rs. 11,500.
If constructed entirely
of brick in chunam the
cost

cost would be Rs 13,200.

4 The cost of the site approved in G.O. No. 185 dated 19th February 1874 was estimated at 1240 Rs, the proprietor having asked 2000 Rs for it, this sum will have to be added to the estimated amount, if it is decided to build. Adding it to the lesser estimate in preceding para, and allowing for increased accommodation in godowns, the estimate will become 13,000 Rs. A monthly rent of Rs 60, represents a return of about $5\frac{1}{2}$ per cent on this outlay.

5. It is understood that a proposal was made

made, and favored by Mr. Linn, to erect a building for the accommodation of Post and Telegraph Offices near the Library, and to do away with the existing Post Office which is certainly not ornamental. It does not appear that any estimate however was called for.

to private parties to
erect a building to be
rented by Govt.

The Commissioner
Nulghenis will be
instructed in the Public
Department to expedite
the report called for in
G.O. No. 494 dated 20th April
1875 in that Department,
on an alternative site.

The District Engineer
will report, as early as
possible, on the feasibility
of combining a Telegraph
Office, providing similar
accommodation to the
design now submitted,
with the existing Post
Office.
