Report of a Fire on the
Dickinson West Line

The introduction
of German remarks
is so tedious -
"The piece was dis-
covered by accident"
"and was done by"
"the rest of the company"
"in a small portion"
of the "half-hour"
that was on the table
of the carriage with
us & we were in it. It
is a bad reading, the
poorage would be a
have been a usual doing.

The introduction
of human manure
as follows -

The fence was dis-
covered but in time,
"moderately close to"
the rest of the enclosure
was a small portion
of the "bar-fence"
that was on the top
of the embargo wall.
If I went in it, I
would probably find
the passage would prove to
have been carefully done.
