*Proceedings of the Madras Government, Public Works Department,
6th January 1875.*

No. 42. Read the following letter from Colonel E. A. FOORD, R.E., Superintending Engineer, Bellary, to Lieutenant-Colonel J. MULLINS, R.E., Chief Engineer for Irrigation, dated Bellary, 25th November 1874, No. 1,434 —

I HAVE the honor to report that the Gootloor tank bank has sustained some damage from the heavy flood which passed through the breach between the 15th and 27th of October. Although the precaution was taken of revetting temporarily the sides of the breach, which could not with safety be closed till after the monsoon, a quantity of earth was carried away from the south side together with a small quantity of stone.

2. The cost of repairing the damage is estimated at Rupees 786

3. The balance of the sanctioned estimate is Rupees 4,476. The amount required to complete the work will, therefore, be Rupees 5,262

4. As it is very desirable that the work should be completed during the present official year, I request that funds may be allotted for the purpose. The expenditure on the work has already exceeded the present allotment by Rupees 10,973, *vide* my report, dated 28th September 1874, No. 992.

No. 43. ORDER THEREON, 6th January 1875, No. 22.

IRRIGATION, No. 7.

RECORDED, with the remark that it is to be regretted that any filling in of the breach, with consequent diminution of waterway, was attempted, until the time came for closing it altogether.

2. It is observed that arrangements with respect to funds have already been made in Government Order, No. 3,290, of the 21st November 1874.

(True Extract.)

Colonel, R.E.,
Secretary to Government.

To the Superintending Engineer, Bellary
" Chief Engineer for Irrigation
" Controller of Public Works Accounts.
