

*Proceedings of the Madras Government, Public Works Department,
25th August 1875.*

No. 406. Read the following endorsement of the Chief Engineer for Irrigation, dated Ootacamund, 14th August 1875, No. 918-A :—

From Colonel F. J. MOBERLY, R.E., Superintending Engineer, Chingleput, to Major J. O. HASTED, R.E., Officiating Chief Engineer for Irrigation, dated Guindy, 2nd August 1875, No. 1,690.

I HAVE the honor to observe that there is a mistake in paragraph 13. of your Memorandum, No. 395-A, of 19th April 1875, in the drainage basin of the Katankal.

2. The Boosykal and Katankal carry off the water from only 106 miles altogether so far as I can find, and I think I have good information. Of this the Boosykal drains 44 and Katankal 62 miles.

3. I have therefore instructed the Range Officer to provide 216 and 280 feet water-way for the streams respectively, which with $4\frac{1}{2}$ feet head will, I believe, amply suffice.

4. These are to be divided into sixty-two vents in four places, of the form desired in your No. 236, of 26th February 1875, paragraph 3.

SUBMITTED for the information of Government, with reference to paragraph 13 of the Notes printed in Proceedings, Madras Government, No. 2,011, of the 15th July 1875.

2. The area of the catchment basin of the Boosykal, as entered in the Notes, was taken from the Superintending Engineer's letter, No. 629, dated 30th May 1873, paragraph 9, and that of the Katankal was deduced from the relative length of surplus weir considered necessary for this drainage.

(Signed) JOHN MULLINS, Lieut.-Colonel, R.E.,
Chief Engineer for Irrigation.

No. 407. ORDER THEREON, 25th August 1875, No. 2,428.

IRRIGATION, No. 24.

ORDERED to be recorded.

(True Extract.)

Major-General, R.E.,
Secretary to Government.

Chingleput

To

The Chief Engineer
for Irrigation

Sir,

I have the honor to observe that there is a mistake in para 13 of your Memo No. 395 of 19th April 1875 in the drainage basin of the Katakhal.

2. The Boosykal and Katakhal carry off the water from only 106 miles alto. gether so far as I can find and I think I have good information. of this, the Boosykal drains 44 and Katakhal 62 miles.

3. I have therefore instructed the Range Officer to provide 216 and 280 ft waterway for the streams respectively, which with $4\frac{1}{2}$ ft head will I believe amply suffice.

4. These are to be divided into 62 ments in 4 places of the form desired in your No. 236 of 26th February 1875 para 3.

I have the honor to be,

Sir,

Your most obedient Servant.

R. E. Hubberly

Colonel, R.E.

Superintending Engineer Chingleput.
