ADONI, 7th August 1875.

SIR,—I beg to inform you that on verbal inquiry at the Adoni Railway Station about the death
of the passenger a few weeks back, it has been ascertained that the man was sick of fever before,
and was also starving one or two days previous, and he had his bowels opened once or twice before
he got into the train at same station beyond Raichore. This information has been gathered from
the people who were attending on him. It is also ascertained that he had eaten powder of Bengal
gram without taking meals. The medical officer who happened to be at the station having seen
the deceased was of opinion that he did not die by cholera, but by long-standing sickness, debility,
and indigestion.

2 Under these circumstances no formal inquiry held and verdict recorded

SUBMITTED for the information of Government

2 It will be observed from the accompanying copy of letter from the Tahsildar
of Adoni that, under the circumstances, it was not considered necessary to hold a formal
inquiry and record a verdict.
