*Proceedings of the Madras Government, Public Works Department,
9th September 1875*

No 194 Read the following letter from W B LEGGATT, Esq, A I C E, Officiating District Engineer, Bellary, to Major-General G W WALKER, R E, Secretary to Government, Public Works Department, dated Bellary, 19th August 1875, No 1,075 —

I HAVE the honor to forward for the sanction of Government, a plan and estimate of Rupees 305, for repairing the Telegraph Office at Bellary, duly countersigned by the Director-General of Telegraphs in India, and to request that you will be so good as to obtain an allotment of funds for the purpose from the sum held at the disposal of Government, *vide* G O, No 1,195, dated 30th April 1875

- 1 Plan
- 1 Estimate
- 1 Report

2 The estimate provides for converting two unused stable stalls, attached to the Telegraph Office, into store rooms, by blocking up the archways with walls of stone in mortar, provision is made for doors and for a flooring of stone slabs, as shown on the plan, and for sundry other repairs and for whitewashing. As the proposed improvements are trifling, they are classed under "repairs" in accordance with paragraph 100, Chapter V, of the Public Works Code

3 I may mention that at the request of the Superintendent of Telegraphs, Bellary Division, an item of Rupees 122-11-8 was entered in the estimate for record racks, but the Director-General has struck out the item therefrom, observing that "there is not sufficient room on the telegraph premises for the accommodation of the Superintendent's Office"

Reports to accompany the Estimate for certain alterations and Repairs to the Telegraph Office.

Amount of Estimates Requested 305

It is desired to convert two unused stable stalls into store rooms. This is provided for in the estimate, by placing doors in the archway, as per accompanying sketch, and providing a flooring of slabs. The walls will require 3 Coats of whitewash being very dirty and smoked.

The Telegraph Office requires thorough floor painting, whitewashing and wood oiling and the same is accordingly provided for.

Three shelves are required two open and one closed.

The space to be occupied is $19\frac{3}{4} \times 1\frac{1}{2}$.
The bottom shelf will be raised 6" from the ground and the span between shelves will be 18".

A frame will be formed with 10 uprights 4-10 apart from Centre to Centre,

5 in front, and 5 in rear 4" square, held
together by horizontal pieces 3×2
running front and rear and across
the ends, and on which the shelves,
of one inch planking, will rest.

The top opening requires to be
closed, which will be done by making
it into 4 Cup boards $1\frac{1}{2} \times 1\frac{1}{2} \times 1\frac{1}{2}$, one
between each pair of uprights, closed
by double doors, one to fasten inside
with a catch, and the other to lock
to the former.
