Spec^d, for execution, as a work
prepared, from funds at the
disposal of the D.S. - 1891

Specification to accompany estimate
for renewing and tarring the railings
of the Regimental Hospital - Camp
at Camanora
Amount of Estimate - Suppl. \$55.00

Several of the upright and cross
pieces in the railings are rotten and
useless. All those that are serviceable
are marked with a cross and those that
are not marked should be removed and
replaced by new pieces of Iron or
Camanora

The upright pieces should be 5'
long and 2 inches square and the tops
of the said pieces should be pointed and
sloped as the feather at present

The horizontal bars should
be let into each pillar 6 inches and in
order to do this a stone must be removed
from each pillar, these stones should be
replaced by new stones set in Chumam

The horizontal bar to be 6" x 4"
and length as in the Estimate

After the whole of the railings are re-
 paired they must be tarred with two
 coats of Coal tar.

When the work is completed all
 rubbish should be removed and site left
 quite clean.
