MADRAS RECORD OFFICE

Government of Madras

Public Works DEPARTMENT

G.O. No.	2635	(W)	Press
B.P. No.			Mis.

Dated 13-9- 1875.

Not to be folded or roughly handled

Proceedings of the Madras Government, Public Works Department,
13th September 1875.

No. 302. Read the following letter from Colonel E. A. FOORD, R.E., Superintending Engineer, Bellary, to Major-General G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Camp at Gadiganur, 24th July 1875, No. 763:—

I HAVE the honor to forward, for the sanction of Government, from the current year's grant under Minor New Works, Military, a revised plan and estimate of Rupees 500, accompanied by a specification report, for the construction of a gram boiling shed for the Commissariat Mules at this station.

1 Plan.
1 Estimate.
1 Report.

2. The plan and estimate have been countersigned by the Local Military authorities, and have met with the approval of His Excellency the Commander-in-Chief.

3. In the original plan sanctioned in G. O., No. 3,151, dated 29th September 1869, accommodation was provided for one boiler only, whereas the accompanying plan provides for four boilers (the number in daily use) at a cost a little less than one half of the sum sanctioned* in the above quoted G.O.

* Rupees 1,160.

4. The Deputy Assistant Quarter-master-General reports that "at present the gram is boiled in an uncovered, though walled in, space. During the rains there is always a possibility of the animals receiving half cooked gram, whilst during the sudden high winds that so often prevail here, danger exists from fire being blown on to the surrounding thatched huts of the Muleteers."

No. 303. ORDER THEREON, 13th September 1875, No. 2,635.

MILITARY WORKS, No. 8.

THE estimate is sanctioned.

2. It is observed that the District schedule rate for roofing with pot tiles, &c., appears to require revision since that quoted in the present estimate is considerably lower.

(True Extract.)

Major-General, R.E.,
Secretary to Government,

To the District Engineer, Bellary.

Report to accompany the Plan and Estimate for erecting a Grain boiling shed, for the use of Mules attached to the Commissariat Department at Bellary. Vide G.O. No. 3151. dated 29th September 1869 and Letter No. 878 dated 19th May 1875 from the Deputy Assistant Quarter Master General, Ceded Districts, Bellary—

Amount of Estimate Rs. 500—— ~~523~~.

The plan now submitted for sanction, differs from the one originally sanctioned in G.O. No. 3151 of 29th September 1869, and has been prepared in Communication with the Deputy Assistant Commissary General at the Station.

1. The original design only provides accommodation for one boiler, where as four boilers are in daily use, and that number has been provided for in the plan now submitted.

2. The building as now designed, will cost a little more than one half the sum originally sanctioned.

3 The building will be of stone in chunam, with a tiled roof, supported on teak wood Couples.

4. The interior dimensions will be 20×10, with a height to eaves, of 8 feet.

5 There will be four fire places of brick in clay, to accommodate the four large iron boilers now in use

6 The entrance will be an open doorway, 5 feet in width, in the Centre of the front wall.

7. Ventilation, to carry off the smoke, is provided for in the following manner, at 4 feet from the ground, honey Comb work will be built on the wall to a further height of 2⅜ feet, in front and rear, and to the top of the Gables at the ends; in the front and rear, the honey Comb work will be in lengths of 5 feet, between pillars 2⅜ feet high, which will Carry the Summers to support the roof timbers

8 — A floor of Cowding and Clay well rammed, is provided for.

9 All Materials used in the building, to be of the best description procurable and teak wood well seasoned.

All lime to be slaked at site in presence of Overseer or Masonry in Charge.

H. Lieut. Lieut.
Bellary. Assistant Engineer.
