

*Proceedings of the Madras Government, Public Works Department,
16th September 1875.*

No. 364. Read the following letter from Colonel A. S. MOBERLY, R.E., District Engineer, Cuddapah, to Major-General G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Goondaloor, 31st August 1875, No. 1,197:—

THE Sub-Collector of Cuddapah having brought to my notice that there were at Culcadda some brick kilns which were said to have been burnt by the Department Public Works, I had inquiries made, as I had never before heard of any kilns belonging to the department at that place, and learn that they were made by contractors for the old road department on advances made by Mr. Addis, then an Assistant Superintendent in the road department, and that having been rejected as wholly unsuited for building purposes, Government, in their order as per margin, directed that Mr. Addis should make good the sum of Rupees 4,980.

2. From the Government order, No. 316, of 5th February 1859, I gather that a sum of Rupees 1,592 was recovered, leaving a balance of Rupees 3,388; but, as other irrecoverable advances were reported, Government decided that the total amount he had then to make good was Rupees 11,629-1-8. I believe that this sum has never been recovered, and so I beg to know if the bricks should not be considered the property of Government, and, as they were provided for road works, are they to be handed over to the Local Fund Board of the Madanapully circle, or are they to be sold by auction and the proceeds credited to Government?

No. 365. ORDER THEREON, 16th September 1875, No. 2,666.

ACCOUNT, No. 13-A.

REFERRED to the Collector of Cuddapah in order that it may be distinctly ascertained whether any one but the Government has a claim to these bricks. On the Government claim being satisfactorily established, the bricks should be sold by auction under authority of the Collector, and the proceeds credited as the Controller may advise.
