Public Works DEPARTMENT

G.O. No.	2760	(W)	Press
~~B.P. No.~~			~~Mis.~~
Dated	24-9-		1875

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
24th September 1875.*

No. 551. Read the following letter from Major J. BEATTY, R.E., Acting Superintending Engineer, Godavery District, to Major-General G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Dowlaishwaram, 10th September 1875, No. 1,786 :—

As directed in G. O., No. 244, of 26th July 1875, I have the honor to submit a plan and estimate for a new wharf at Cocanada to be erected in front of the Master Attendant's Office.

2 Plans.
2 Estimates.
1 Specification.

2. The roof of that portion of the structure which the Marine Department wish to have covered in has been altered in the plan now sent to trusses and purlins instead of collar beams, both on account of the span, 27 feet, and in order that it may be more securely built to resist wind pressure. Tenders have also been added, and iron shoes to the piles. At the suggestion of the Master Attendant, I have provided eight mushroom screws to be fitted to piles that bear the cranes; and at his suggestion also it is proposed to protect the piles below ordinary low water with a covering of Muntz's metal lined with felt and tar.

3. The principal difference between this estimate and that of Captain Castor has been caused by his proposing to use Godavery teak, while I consider it necessary to use Pegu timber. I find by a reference to the measurement book of the Government Workshop that out of 1,700 logs of Godavery teak only six would have given the requisite lengths and scantlings for the piles wanted for this work.

4. The levels of ordinary low water, high water of springs, and extraordinary floods shown on the plan are those given me by Captain Castor.

5. I return herewith the plan and estimate prepared by the Marine Department.

No. 552. ORDER THEREON, 24th September 1875, No. 2,760.

CIVIL WORKS, No. 37.

The plan and estimate (reduced to Rupees 8,500) are approved, and transferred to the Marine Department for disposal.

(True Extract.)

Major-General, R.E.,
Secretary to Government.

To the Superintending Engineer, Godavery
„ Marine Department.
