*Proceedings of the Madras Government, Public Works Department,
1st October 1875.*

No. 5. Read the following letter from Major J. BEATTY, R.E., Acting Superintending Engineer, Godavery, to Major-General G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Dowlaishweram, 6th August 1875, No. 1,416 :—

In reply to your memorandum, No. 240 of the 17th July 1875, I have the honor to state that the Officer in charge of No. 3 Range cannot conveniently spend more than 5,000 Rupees on the Chettipett Range Office this official year, because he has such a great number of other masonry works on hand, more than have ever yet been carried out in one year. He will require all his masons to get hydraulic works above water level during the time the canals are closed, January, February and March; and bricks and tiles cannot be got ready before February. It will therefore be most convenient to have the balance of estimate in next year's Budget.

2. I beg to suggest, however, that if funds are available an allotment should be made for commencing the new District Engineer's Office, which is now badly wanted, as, owing to the dangerous state of the old building, I have had to provide accommodation for the office elsewhere in rented buildings. These are thatched, and are consequently always in danger from fire. If possible, an allotment of 3,000 Rupees should be made for making a commencement with that building.

No. 6. ORDER THEREON, 1st October 1875, No. 2,830.

CIVIL WORKS, No. 1.

It is impracticable to provide funds for the commencement of the District Engineer's Office in the current year.
