Read the following papers :—

No. 163. From Colonel E. A. FOORD, R.E., Superintending Engineer, Bellary, to Major-General G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Bellary, 6th August 1875, No. 924.

I HAVE the honor to forward, for the favorable consideration of Government, a letter from A. Coopposawmy Moodelliar, at present Taluq Overseer of Ghooty, in which he requests that his previous service may be allowed to count towards pension.

2. A. Coopposawmy was dismissed by Mr. R. E. Norfor while in temporary charge of the South Arcot District, and the dismissal was approved in the Order of Government of the 8th of July 1873, No. 1,763. In a subsequent Order, that of 3rd of February 1875, No. 309-A, he was permitted another trial as Taluq Overseer, 3rd Grade, in any other district but South Arcot or Salem.

3. During the time he was out of the Government service he was employed by the Madras Municipality, and gave great satisfaction to the President and to Mr. Clark, the Drainage Engineer. During the time I was Superintending Engineer of the 5th Division, A. Coopposawmy was employed in the investigation of some large irrigation projects, and was found a careful Surveyor and Draughtsman. After being brought on the permanent establishment he showed himself to be a good Overseer. He has also done very well since his re-appointment to the department in the Ghooty taluq. His qualifications are superior to those of most of the Overseers in the district.

4. If the Overseer's request cannot be complied with on account of his misconduct two years ago, I beg to recommend that at least it be considered when he may apply for his pension, that is if his conduct henceforth be in all respects satisfactory.

No. 164. From Captain L. CONWAY-GORDON, R.E., Controller of Public Works Accounts, to Major-General G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Fort St. George, 5th October 1875, No. 97 W.

IN returning herewith the accompanying letter from the Superintending Engineer, Bellary, forwarded to me for report, with the endorsement of the Officiating Joint Secretary to Government, No. 386, dated 12th August 1875, I have the honor to state that as A. Coopposawmy Moodelliar, at present Taluq Overseer in Bellary Range, was dismissed the public service in June 1873* for misconduct, he cannot under Section 45 of the Civil Pension Code be allowed, without the special sanction of the Government of India, to count his previous service towards pension.

Apprentice A. CUPPUSAWMY MUDALIAR I found always a most attentive good young lad, and I believe his qualifications to be such as to enable him to fulfil in every respect the terms laid down in Colonel Carpendale's Notification in the Fort Saint George Gazette, dated 29th ultimo.

(Signed) M. HOWARD,
Executive Engineer in charge
of Vellore Range.

CAMP VELLORE, }
8th July 1863. }

This is to certify that CUPPUSAWMY MUDALIAR has served under my immediate orders both as an apprentice and passed candidate for a period of about 5 years, during which period I have always found him diligent and very attentive to his duties and on the whole a most intelligent young lad. He is a very good figurist, can draw neatly, and is a good Estimator. He can Estimate from any Plan connected with the works of the Department, or draw a plan correctly from any Estimate given him; he can also Survey and level very well and take measurements in the field and make plans and estimates for any masonry works of Irrigation, &c.

CUPPUSAWMY MUDALIAR possesses a college certificate of 2nd Class Draughtsman and I should be glad to see him in a better position, than that which he now holds.

I therefore have much pleasure in recommending him to any person who may be in want of either a good Draughtsman or Surveyor.

CUPPUSAWMY MUDALIAR Draughtsman,—Is a good Draughtsman, is well up in Mathematics, and qualified for a Taluq Overseer-ship. Sir-

veys and takes levels very accurately and neatly and a good Estimate maker.

EXTRACT from a letter from the Executive Engineer, No. 4 Range, South Arcot, to the Superintending Engineer, 5th Division, dated Virudachelum, 8th January 1869, No. 823.

Para. 2. The surveys and levels were commenced on the 1st June 1868, under my directions, by Surveyor A. CUPPUSAWMY MUDALIAR, by whom also the Plans and Estimates are prepared. He has proved himself a very efficient Surveyor, Estimator and Draughtsman, and would make an exceedingly good Taluq Overseer, in which capacity his abilities, could be used to the best advantage by the Department.

In conclusion with reference to the conduct of the Subordinates in the Range, I have nothing to add to my report for the last official year.

The Draughtsman A. CUPPUSAWMY MUDALIAR, I think is very much under-paid. The Mamathur Annicut works shew that he will make a very good Overseer.

SIR,

With reference to your letter No. 276 of the 7th instant, para 3, I have the honor to bring to your notice that I shall feel much difficulty in collecting information that I may be in need of in connection with the Pelandurai, Mamathur, and Keenanoor Projects to dispose of all the particulars in a creditable manner, in the absence of an able subordinate who has had any connection with these works from their commencement.

I apprehend that the Range Office records are in a very confused state, and any endeavours to search for a particular record will be of no use. In fact I am led to believe from the tenor of your letter under reply that the arrears of accounts are considerable in that office, and that as yet several periodical Statements and Returns, &c., are over due.

Taluq Overseer A. CUPPESAWMY MUDALIAR knows all about these works. He is in fact the promoter of them. I would therefore earnestly beg to solicit that you will be good enough to retain his services in the 4th Range so that I may, with ease, dispose of all the references in connection with these works.

Having to work my way with great obstacles in my new charge I fear I will be quite unable to make any decided improvements, and in the end adopt a systematic method to ensure a speedy progress of works as well as to render punctual submission of accounts, &c., without the aid and assistance of intelligent, willing and honest subordinates.
