

*Proceedings of the Madras Government, Public Works Department,
14th October 1875.*

No. 222. Read the following endorsement of the Chief Engineer for Irrigation, dated Ootacamund, 6th October 1875, No. 1,164:—

From R. SMITH, Esq., Officiating Superintending Engineer, Nellore, to Lieutenant-Colonel J. MULLINS, R.E., Chief Engineer for Irrigation, dated Madras, 2nd October 1875, No. extra 3.

With reference to paragraph 3 of your memorandum, No. 1,038, of 14th September 1875, I have the honor to inform you

* Rupees 6,150 of this sum are for closing the large breach at Mudivertypalem. that Rupees 9,850* will be required for making up and completing the most

emergent portions of the Pennair embankment, exclusive of the amount required to pay for the land wanted for the embankment and pits on the west of Nellore, which will be about Rupees 4,500.

2. As it is of very great importance to protect the town of Nellore from inundation during high floods in the Pennair, and as the safety of the Southern Delta Works is intimately connected with the stability of the embankment between the Nellore Anicut and Nursimacondah, I must beg of you to press for immediate sanction to proceed with the work in that section of the embankment at least, as grave responsibility is attached to the officers concerned after the warning we had last year.

3. On receipt of G. O., No. 1,612, of 9th June 1875, I applied to the Collector for the necessary information, regarding the loss of public and private property on the north of the Pennair by the great flood last year; but it did not occur to me that it would be necessary to submit similar details in support of the estimate for embanking the right bank of the river, as the interests at stake there are so great and the necessity for protecting them so apparent. The required information will, however, be forwarded as soon as possible; meanwhile I trust Government will permit me to proceed with the banking to the extent of the current year's allotment.

SUBMITTED for the consideration and orders of Government, with reference to the estimates for embanking the south or right bank of the Pennair submitted to Government on the 14th ultimo, and to paragraph 6 of the note reviewing the estimates.

2. The Superintending Engineer states that Rupees 9,850 will be required for the more emergent work to the embankments, and Rupees 4,500 for land compensation, but of the former sum Rupees 6,150 for closing a breach near Mudivertypalem must be deemed a repair, and should be provided for from the repair grant under Agricultural, Miscellaneous. It is also not very probable that the whole of the compensation will be settled and disbursed during the present year, and so Rs. 3,000 on this account may be provided, making Rupees 6,700 altogether for New Works, Miscellaneous.

(Signed) JOHN MULLINS, Lieut.-Colonel, R.E.,
Chief Engineer for Irrigation.

Proceedings of the Madras Government, Public Works Department,
14th October 1875.

No. 223. ORDER THEREON, 14th October 1875, No. 2,935.

IRRIGATION, No. 21.

Account.

RUPEES 6,700 will be included in the application to be made to the Government of India for a supplemental grant under Agricultural, Ordinary, and in the mean-

time the Superintending Engineer, Nellore, is authorized to proceed with the emergent work on the south or right embankment of the Pennair.

2. The closing of the breach at Mudivertypalem should be charged to Repairs.

3. The information referred to in paragraph 3 of Mr. R. Smith's letter should be submitted as early as possible.

Extra No. 3.

Superintending Engineer's Office,
Camp. Madras, 2nd October 1875.

From,

R. Smith Esquire,

Offy Superintending Engineer
Nellore

To,

Lieutenant Colonel J. Sullivan R.A.

Chief Engineer for
Irrigation.

Fort St. George.

Sir,

With reference to paragraph 3 of

your Memorandum, No. 1038 of 14th September

1875, I have the honor to inform you

Rs. 6,150 of this
sum are for
closing the large
breach at
Mudivertypalem.

that Rs. 9,850 will be required for

making up and completing the

most emergent portions of the

Pennair Embankment, inclusive of

the amount required to pay for

the land wanted for the embankment
and pits on the west of Nellore,
which will ^{be} ~~amount to~~ about Rs. 4,500

2. As it is of very great importance
to protect the town of Nellore
from inundation, during high
floods in the Pennair, and as
the safety of the Southern Delta
works is intimately connected
with the stability of the Embankment,
between the Nellore Puzent and
Narsimhacondah, I must beg
of you to press for immediate
sanction to proceed with the
work in that section of the

embankment at least, as grave
responsibility is attached to the
Officers concerned after the warning
we had last year.

3. On receipt of G.O. No. 1612 of 9th
June 1875, I applied to the Collector
for the necessary information,
regarding the loss of Public and
Private Property on the north
of the Pennair by the great flood
last year, but it did not occur
to me that it would be necessary
to submit similar details, in
support of the estimate for embanking
the right bank of the river, as
the

the interests at stake there, are
so great, and the necessity for
protecting them so apparent. The
required information will, however,
be forwarded as soon as possible.
Meanwhile, I trust Government
will permit me to proceed with
the Banking to the extent of the
current year's allotment.

I have the honor to be,

Sir,

Your most obedient servant.

Wm. H. Smith
Offg. Superintending Engineer.

Subma 1.

Submitted for the consideration and
orders of Govt, with reference to the esti-
-mates for embankment of the South or
right bank of the Pennair submitted
by Govt on the 14th Holimo and to para 6
of the note reviewing the estimates.

2. The Super Engineer states that Rupees
9,200 will be required for the more emer-
-gent work of the embankments, and
Rupees 4,500 for land compensation,
but of the former sum Rupees 6,150
for closing a breach near Sundivastu
follies must be deemed a repair, and
should be provided for from the
repair grant under Agricultural,
and cellamans. It is also not very
probable that the whole of the
compensation will be settled and
disbursed during the present year, and
so Rupees 3,000 on this account may
be

he provided, making Rupees 6700
altogether. L. A. ...
