*Proceedings of the Madras Government, Public Works Department,
26th October 1875.*

No. 345. Read the following letter from Messrs. BINNY & Co., to Major-General G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Madras, 23rd October 1875:—

We have the honor to bring to your notice that in consequence of the bar of the Ennore lake having been opened last year at a considerable distance, several hundred yards, farther south than it used to be, one of the bungalows belonging to us at Ennore was swept away by the encroachment of the sea, and we now understand that the District Engineer is proceeding to cut the bar at the same spot as he did last year, which we fear will endanger our remaining bungalow at the place.

2. We have therefore the honor to request you will be pleased to cause the cutting of the bar at the southern point to be suspended pending further inquiry. Whatever may be necessary for relieving flood-water we trust may be done at the more northerly point as marked in the accompanying plan, which please return when done with.

No. 346. ORDER THEREON, 26th October 1875, No. 2,988.

CIVIL WORKS, No. 25.

THE Superintending Engineer, Chingleput, will suspend action as regards cutting the Ennore bar at the southern

point alluded to, till he can show cause why the former practice of cutting it at the more northerly point should not be maintained.

Madras, 18 October 1875

My dear Mr. Muddleston

With reference to the correspondence I had with you early in the year, regarding our property at Ennore, our agent, has just reported that the District Engineer is proceeding again to cut the War, where he did that year thereby causing so much loss. If the War be again opened in the same place, our remaining Dungalun will meet probably be carried away, and it seems very hard, we can apparently get no redress from Government.

I will esteem it a favor if you will kindly let us know who has the proper authorities to address officially.
